PROSPECTING INSTRUMENT IS PERFECTED

Professor and Graduate of B.C. University Develop Secret Mechanism

MINING AUTHORITIES INDORSE PRINCIPLE

VANCOUVER, Aug. 9.—An instrument for detecting radio-active ore, developed in the research laboratories of the University of British Columbia, has been announced by the discoverers, Dr. G. M. Shrum, professor of physics, and Ronald Smith, graduate student. Pending further investigation, the mechanism is being kept secret.

According to mining men who attended a demonstration at the University, Tuesday, the device is practical and promises to revolutionize the prospecting for radio-bearing ore in British Columbia. Two years' research in cosmic and gamma rays by Dr. Shrum and university assistants have preceded the discovery.

ENDORSE PRINCIPLE
Samples of ore from Great Bear Lake, Quadra Island and Ontario were used in the demonstration. Dr. C. A. Dolmage, head of the British Columbia Geological Survey; Dr. F. E. Woodside, manager of the British Columbia Chamber of Mines; Dean R. W. Brook and other mining authorities endorsed the principle after watching the instrument at work.

"As far as I know," said Dr. Dolmage, "the idea is new. It is absolutely practical and it will save a great deal of time and money if it supersedes the methods for detecting radium which are now in use."

TELL-TALE CLICKS
The instrument consists of a battery amplifying set with head phones and a sealed glass bulb for detecting gamma emanations from radium. The presence of radium is indicated by sharp "clicks" in the ear phones. Cosmic rays, from interstellar spaces, cause "clicks" at all times, but these are constant at the rate of about four sounds a minute. Nearness to radio-active ore results in a sudden intensity in the "clicking."

EASILY CARRIED
According to Dr. Shrum and Ronald Smith, the apparatus for a prospector's kit weighs less than twenty-five pounds and can be carried on the back with the phones attached to the ears. They say that it is superior to the gamma ray electroscopes now in use, which are inaccurate, susceptible to weather conditions and easily broken.

SAANICH PAYS PREMIER HONOR

Resolution Ordered Sent to Hon. S. F. Tolmie by Conservative Association

At a well-attended meeting of the Saanich Conservative Association held last evening in the Campbell Building, praise was given Hon. S. F. Tolmie for the valuable services which he had rendered his native province during his visit to Ottawa.

A resolution setting forth appreciation of what Premier Tolmie had done for the province as a whole and for the Dominion of Canada through his splendid efforts in the progress of the Economic Conference, and with the Dominion Government in other lines of activities, was carried and ordered to be forwarded to the Premier.

Several members of the association expressed themselves fervently upon how British Columbia had profited by the presence of Dr. Tolmie in Ottawa at an epoch-making time.

Fire Traps Thousands In Subway

NEW YORK, Aug. 9 (AP).—A fire which trapped terrified thousands in the smoke-filled tunnels of a subway transit line today, resulted in slight injuries to more than a dozen, and tied up Manhattan traffic for four hours.

The fire was caused by a punctured paper cable, pierced by workmen using a compressed air drill to lay a telephone cable. It short-circuited, a few flames shot up, and smoke moved up the tunnel of the East Side line, which passes through the Grand Central Station.

Compressed air pipes melted in the flames, and escaping steam added to the obscuring smoke and poured up through the manholes.

THOMAS F. FIELAN DEAD
TORONTO, Aug. 9 (CP).—Thomas F. Fielan, millionaire president of the Canadian Railway News Company and one-time ace of sheep-chasers in North America, died tonight. He was eighty years old.

Plans Stratosphere Flight

PROF. August Piccard, who gained fame last year when he soared higher into the heavens than any man had ever gone before, is at Zurich, Switzerland, with his balloon and all-metal gondola. He plans to take off today for another trip in the stratosphere. Photos show a close-up of Professor Piccard, the scientist, climbing into his gondola, and a view of the balloon with the gondola below.

Boat Accident at Shawnigan Lake Takes Two Lives

Miss Marjorie Gilliland and Wilfred Francis Thrown From Speedboat While Avoiding Obstruction—Betty Francis Is Rescued by Campers—No Trace of Bodies Found

TRAGEDY cast its shadow of gloom over the Summer colony at Shawnigan Lake yesterday afternoon when Miss Marjorie Gilliland, aged eighteen years, of 1321 Johnson Street, and Wilfred Irving Francis, aged twenty-one years, of 1742 Lee Avenue, were drowned when the speedboat they were in capsized. A third occupant, Betty Francis, aged eleven years, and brother of Wilfred, was rescued by campers. The girl clinging to the boat until picked up.

The fatality occurred about noon yesterday, and since then dragging operations have been carried out. Up to a late hour last night, no trace of the bodies had been found, it was reported.

The three campers had taken the speedboat to go to the Shawnigan Lake store and were returning to their home when the accident happened.

SIGHT OBSTRUCTION
According to eyewitnesses, Miss Gilliland was at the steering wheel and the boat was just off the Shawnigan Lake lumber mills when Wilfred Francis sighted an obstruction. Apparently thinking his companion had not seen the obstruction, he seized the wheel and swung the helm over.

The craft banked in a sharp curve, throwing Wilfred and Miss Gilliland from the boat. Betty was dislodged from her seat, but managed to grasp at the boat as she was flung out. She clung to the side until rescued. The engine automatically stopped after the accident.

COUPLE DISAPPEAR
Campers on shore, who witnessed what happened, immediately took to rowboats. They report that when Miss Gilliland and Wilfred were first seen in the water they were

MAY BRING END TO HOSTILITIES

Girl Recruits to Red Cross Parade Streets of Paraguayan Capital

ASUNCION, Paraguay, Aug. 9 (AP).—The people of Asuncion were stirred today by reports that hostilities against Bolivia in the Gran Chaco might be suspended tomorrow in accordance with the programme submitted by neutral mediators.

Hundreds of girl recruits to the Red Cross paraded the streets. Meanwhile girls in the Domestic Science School were sewing uniforms for a battalion of university men.

Paraguayan agriculture may be the permanent gainer from war preparations. The Director of Economic Affairs dispatched experts throughout the country to teach the farmers how to increase production. The purpose was to make Paraguay capable of feeding herself, as she did for several years when surrounded by enemy nations in the 1890's.

VIOLENCE TO BE CHECKED BY DECREES

Extraordinary Powers Invoked in Germany by Chancellor von Papen

DEATH PENALTY FOR ACTS OF TERRORISM

BERLIN, Aug. 9 (AP).—The Government tonight invoked extraordinary powers, including the death penalty, in an effort to put a stop to outbreaks of political violence which have resulted in the killing of at least 140 persons and serious injuries to more than 1,000 since June 1.

With the approval of President Paul von Hindenburg, three emergency decrees were issued by Chancellor von Papen.

One of these extended the political truce to September 1. Another set up heavy penalties, including sentence of death, for acts of terrorism. The third instituted special "speed" courts to deal summarily with offenders.

PRESIDENT APPROVES
The Government did not wait for President von Hindenburg to return from his country estate at Neudeck, in East Prussia. The substance of the three decrees was conveyed to the President by telephone and he approved them.

Meanwhile Adolf Hitler, furious because of outbreaks in which storm troops participated, notably in East Prussia and Schleswig-Holstein, issued most stringent orders discipline must be maintained among his Nazi storm troops.

Opposition newspapers expressed fear the Government has moved too late to put an end to the riots and sabotage which have kept Germany in turmoil for weeks. But members of the Cabinet voiced the belief the emergency decrees were sufficiently drastic to stamp out the regime of terror.

Among the offenses which will be considered in the new "speed" courts are gun carrying, arson, flooding, bombing and attempts to tamper with the railways, regardless of whether loss of life results.

May Set Up Permanent Secretariat

OTTAWA, Aug. 9 (CP).—Establishment of a permanent secretariat to deal with questions arising out of the Imperial Conference is a matter which will be considered before the meeting will be terminated. This has not yet been placed before the delegates in concrete form, but the understanding is that certain discussions looking towards such a body have been conducted informally. It is much having been said in favor of an organization of that character.

MADRID SCENE OF REBELLION

Armed Attack Made on Ministry—Police Use Machine Guns

MADRID, Wednesday, Aug. 10 (AP).—An armed attack on the Ministry of War, described in conflicting reports as a Communist assault and a movement of the Rightist elements against the Government, in which parts of the army were involved, began here early this morning.

The Ministry of War also houses the office of the Premier.

Cordons of police, drawn up around the building, battled the attackers with machine guns and rifles.

Some officials said the attackers were Communists, but military officials said the army was involved in a Rightist movement against the Government, and the first objectives were the Ministry of War, the Premier's office, the telephone company, and subcommissary of communications.

The Government forces were successful, after the first hour of heavy firing, in holding off the assailants and in preventing attacks on the other objectives.

An attempt was made to arrest the Associated Press correspondent, who saw the battle begin, but he escaped.

FIRE-FIGHTERS WAGE SUCCESSFUL BATTLE

NELSON, Aug. 9 (CP).—Battling against high winds fire-fighters are waging successful battles against the forest conflagrations raging in various districts adjacent to Nelson, according to British Columbia forestry officials tonight. The outbreak, which threatened the mill of the Reno Gold Mines on Sheep Creek, was being held in check, and men, assisted by pumps, have gained control.

A large force of men fighting another serious outbreak near Thumra were making headway against the flames, it was reported.

Premier Tolmie Is On Way Back From Ottawa Conference

PREMIER Tolmie left Ottawa yesterday for the Coast and will come straight through to Victoria. It was announced at the Legislative Buildings. Earlier in the day communications between the Premier and Acting Premier Pooley were exchanged.

RESIGNATION AT NANKING

Dissatisfaction With Military Authorities in Manchuria Brings Cabinet Crisis

SHANGHAI, Aug. 9 (AP).—As an aftermath of China's long conflict with Japan over Manchuria, the entire Cabinet of the Nanking Government resigned today.

T. V. Soong, retiring Minister of Finance, announced there was no cause for alarm in the mass retirement of the minister, as each of them would carry on until a new administration had been formed.

FURTHER COMPLICATIONS
The governmental situation was further complicated by news from Nanking that Marshal Chiang Kai-shek, former President and now the most powerful of the nation's military leaders, had threatened to resign unless Wang Ching-wei agreed to remain as Premier.

It was the resignation of Wang Ching-wei Saturday which brought the Cabinet crisis to a head. He retired because he was dissatisfied with the "passive policy" of the Northern military authorities toward the capture of Manchuria by Japanese troops and the replacing of Chinese authority there by the Japanese-supported state of Manchukuo.

RESIGNED MONDAY
Marshal Chang Hsiao-Liang, young Peiping war lord, submitted his resignation yesterday as a result of Wang's criticism.

A Peiping dispatch said that censorship had been imposed there on outgoing messages relating to political events.

FIREMEN CALLED TO BLAZING CROSSES

EDMONTON, Aug. 9.—With clouds of sparks drifting into the air and with a flood of complaints to the city fire department switched to the city firemen, a fire broke out in a fifty-foot cross in the race track enclosure at the Exhibition grounds, Monday night. There were four smaller crosses on each side of it.

The crosses burned in connection with a K.K.K. demonstration.

MATHEMATICIAN DEAD

TORONTO, Aug. 9 (CP).—John Charles Fielan, head of the mathematics department at the University of Toronto and known throughout the world as a great mathematician, died tonight at his residence. He was in his seventieth year.

CANADA LIKELY TO STAND BY ORIGINAL OFFER TO BRITAIN

Sets Relay Race Record

"BILLY" Von Bremen, anchor runner of the United States team, is shown breaking the tape to win the 400-metre women's relay race, with Hilda Strike, Canada, second for her team. Miss Strike made a marvelous attempt to overtake Miss Von Bremen, and succeeded in gaining a yard of two lost in the exchange of the baton. The time of forty-seven seconds flat is a new world's record.

British Delegation Is Playing Astute Game With Canada

Observers Believe Negotiations With Canadians Intentionally Delayed Until Agreement With Australia Completed

OTTAWA, Aug. 9.—Despite official reticence, it is understood on good authority that Britain and Australia have come to terms. Final discussions involving meat preference were held today. Meanwhile the Canadian Cabinet discussed the reply of the British Government to Canada's proposals.

RUSSIA IS BIG EXPORT FACTOR

Figures Show Soviet Influence on Wheat Market in Britain

OTTAWA, Aug. 9 (CP).—During the calendar year 1931 Russia supplied the United Kingdom with 24.2 per cent of its total wheat requirements, while Canada's percentage was slightly higher at 25.12. These figures were contained in a special report on world trade in wheat, issued today by the Dominion Bureau of Statistics, especially for the benefit of the Imperial Economic Conference.

Russia's total exports of wheat to the United Kingdom in 1931 amounted to 54,010,280 bushels, as compared with total Empire imports to the United Kingdom of 94,948,376 bushels.

RAILWAY MAY BE FORCED TO CLOSE

De Valera's Tariff Policy Disastrous in Its Effect on Irish System

DUBLIN, Aug. 9 (CP).—A warning that unless the Free State changes its tariff policy the Great Southern Railway may have to close down was sounded today by Sir Walter Nugent at a special meeting of the shareholders.

The new \$100 tax per ton on British coal came in for severe criticism. One representative shareholder attributed the immediate railway crisis to this tax, claiming that British coal alone is suitable for the company's engines.

The railways, shareholders declared, could not submit to be financially penalized in order to help the political policy of the De Valera Government.

Sir Walter Nugent, who has occupied high office in several railway companies and was deputy governor of the Bank of Ireland, drew a gloomy picture of impending disaster.

Casualties In Brazilian Revolt Heavy

RIO DE JANEIRO, Aug. 9 (AP).—Heavy casualties were reported today as Brazilian Federal troops claimed further gains against the rebels of Sao Paulo on various fronts.

Refugees said the rebels had lost 1,000 men in one sector alone and their hospitals were crowded.

General Waldomiro Lima, commander of Federal forces striving to dislodge the rebels along the entire length of the Southern Sao Paulo border, reported by radio that his troops had captured Itaporanga.

Delivery of Reply to Baldwin Letter Expected Today—Points Summarized

DOMINION CONSIDERS HER PROPOSALS FAIR

By GEORGE HAMBLETON
OTTAWA, Aug. 9.—Canada's reply to Great Britain is understood to be virtually ready. Its delivery is expected tomorrow.

Indications tonight are that the reply will, in the main, stand by the offer of preference for preference which Canada has already made to Great Britain. On iron and steel some concessions may be made to the British viewpoints but the Canadian view, generally speaking, is that the offer is fair.

One Canadian minister, discussing the situation tonight, was inclined to brush aside the difference of opinion between British and Canadian experts as to the value of Canada's offer in terms of British export trade.

FOUR POINTS AT ISSUE
He summed up the real points at issue as four-fold:

- (1) That Canada asks concession for concession.
- (2) That Great Britain has not, since the conference opened, indicated to the Canadian delegation how far she is prepared to reciprocate.
- (3) That Great Britain has not indicated what she is prepared to do to stop Russian dumping.
- (4) That Great Britain has not indicated what steps she is prepared to take to prevent the sliding up and down of sterling.

OTHER DIFFERENCES SMALL
"Those," it was stated, "are the real questions at issue. The difference over figures is not so serious as it may seem to appear."

Both Mr. Baldwin's letter and the general terms of Mr. Bennett's reply were under consideration today by a Cabinet subcommittee and later by the Cabinet itself. British and Canadian experts were also in contact in an endeavor to iron out their differing opinions as to the value of British export trade of Canada's offer.

DIFFERENCE IN BASIS
As experts have differed in every conference since the war, it is doubtful if experts will reach absolutely common ground in the present instance. But, according to one explanation, the difference between the Canadian and British experts arises largely from the manner in which the figures have been compiled. The Canadian figures were based on totals of actual indices. The British were based, not on itemized exports but on groups of exports. The statistical periods taken were also not the same.

READJUSTMENTS ARE ANNOUNCED

Radical Changes to Be Made in Courses of University

VANCOUVER, Aug. 9.—Radical readjustments in the courses of the faculties of arts and agriculture of the University of British Columbia were announced following a meeting of the university senate Monday night. No change was made in the engineering courses in the faculty of applied science.

Many courses in arts and agriculture will be dropped because of the reduction in the teaching staff, according to the statement, but a policy of discontinuing the least essential courses has been followed. The work of junior professors, who have been dismissed, will be taken over by the senior professors and lectures will be given to larger classes than formerly.

LESS SUPERVISION

Graduate work, honor courses and the department of commerce will be retained, it was decided by the senate, but reductions in choice of studies will be enforced. There will be less supervision by the faculty and more independent work by the students.

"It is anticipated," reads the statement, "that the students will rise to the occasion and maintain the high quality of work, not only in the pass but also in the honors degree, even where there is a considerable restriction in the range of subjects available."

FACULTY LEFT INTACT

The senate considered that the "need for trained technical men for the development of the natural resources of the province and the extension of its base industries is so great that the faculty of applied science was left intact."

Passenger Coach Of Novel Design

PHILADELPHIA, Aug. 9.—Two tiers of seats, at different levels, are features of a passenger coach designed for the Long Island Railroad here, with the laudable object of giving commuters more seats and less standing room.

B.C. Prepares for Operation of New Motor Vehicle Law

Financial Responsibility Clauses in Provincial Statute Go Into Effect September 1—Underwriters Have Arranged Uniform Policies

SIX provinces in Canada have now enacted financial responsibility clauses in their Motor Acts, that in British Columbia being due to go into effect on September 1 this year. The British Columbia act will allow the principle of a first accident, or, in other words, drivers will not be affected by the law until they render themselves open to its terms. New Brunswick, Prince Edward Island, Manitoba, Nova Scotia and Ontario have adopted similar legislation, the Ontario act being a pattern for most of the provincial statutes in this regard.

Paving the way for its co-operation with the new British Columbia law, the British Columbia Insurance Underwriters' Association, automobile branch, has issued a brief pamphlet analyzing the chief terms and effect of the British Columbia statute. Automobile insurance underwriters across Canada have prepared a uniform policy to meet the new condition that obtains under such legislation.

NOT COMPULSORY
The summary makes it plain that insurance is not compulsory, and that the whole object of the law is to encourage careful driving and eliminate irresponsible drivers after they have first proved themselves to be such.

Under the amended sections of the British Columbia Motor Vehicles Act, motor licenses may be suspended for failure to satisfy within thirty days a final judgment by any Canadian court for injury to persons or damage in excess of \$100 to property, through driving, for driving to the common danger, or for exceeding the speed limit, where damage in either case is more than \$25; for failure to return to the scene of an accident; for driving without a license, and for any criminal offence involving the use of a car.

ACCIDENT IS TEST
Every licence suspended under such conditions will remain void until the holder has given proof of his financial responsibility, and, in the case of motor licenses, until these claims are satisfied. The proof of financial responsibility to be demanded includes visible cash, or credit in the form of bond or insurance to the extent of \$10,000, of which is for the coverage of public liability and \$1,000 for property damage.

Deposits of cash or securities for the amount will be accepted, or the filing of the bond of an authorized guarantee or surety company, or the filing of a policy of an authorized

Every Month a Cheque

Every month a holiday!

Every progressive man or woman ought to ask this question: "Since I cannot work all my life, what should I do about my income for my later years?"

Here is the answer. An Imperial Pension Bond will guarantee to pay you a certain definite income every month after you reach the age you want it to commence.

For instance, \$50 a month Pension Bond to commence at age 60 would give you \$50 plus profits every month as long as you live. This income would be paid for at least 10 years.

SEND THE COUPON TODAY FOR COMPLETE INFORMATION.

The Imperial Life Assurance Co., Head Office, Toronto, Ont.
Please send me full information by mail about the Imperial Pension Bond, without obligating me in any way.

"Scotland on Top of England" Naive Child Tells Scot

ONE of the choicest bon mots ever collected by a Scotsman in a foreign country was surely that dropped yesterday into the gratified ears of D. Duncanson, of Glasgow, Scotland, president of the Glasgow branch of the British Astronomical Association, who is here this week with the party of European astronomers visiting the island.

As he sailed from the Empress Hotel yesterday Mr. Duncanson was approached by a little fellow who asked him for his autograph. Flattered that he should be asked, but modestly believing that he should respond to the request as the proud representative of his home town in North Britain, Mr. Duncanson signed his name and, with a flourish, "Glasgow" after it. Here was a priceless opportunity to test the young Canadian's knowledge of geography.

"Do you know where Glasgow is?" he asked the boy.

"No—the boy wasn't sure."

"Then do you know where Scotland is?" said the visitor.

The child, happily remembering his map, came back with what proved to be the Scotsman's delighted ears, an unfortunately beautiful bit of repartee: "On top of England!" he said.

Mr. Duncanson told this incident with much glee at the dinner given here Monday night to the visiting astronomers.

CERTIFICATE PLANNED
Insured persons, the brief sets out, will receive a certificate of insurance, which can be filed, after September 1, with the Commissioner of Provincial Police, as proof of financial responsibility, voluntarily offered, without demand.

Injured persons, it is stated, may, after September 1, apply to the Commissioner of Police for information as to the financial responsibility of any driver with whom they may have just grievance. A fee of \$1 will be charged for search in such cases.

POLICE MAKE READY
While insurance companies have been making ready for the introduction of the new law in British Columbia, the Provincial Police have been similarly active. A case will be opened at the Provincial Police headquarters for the operation of the scheme, and the filing of financial responsibility papers will become one of the many forms of registration effected by the force.

Apart entirely from the law-abiding public and the desire to curb motor accidents, the new law will serve as an additional check on the use of motor cars for illegal purposes, being a direct blow to high-speed crime which has made its appearance in some parts of the continent, but happily scarce here.

FORBES WINS TENNIS TITLE
Defeats Andy McBride in Final After Three Hard Sets at Kingston Street Meet

With the exception of the men's handicap singles, all events in the Kingston Street Tennis Club's annual tournament were concluded Sunday, and titles named.

Tommy Forbes won the men's singles event from Andy McBride in straight sets, after a hard fight, and combined with Arthur Burgess to win the men's doubles event from Harrison and Kenwick in five sets. The latter combination won the first two sets, and eased up, while Burgess and Forbes played with more confidence to take the next three.

In the mixed handicap doubles, Miss Lea and Cammisa won from Miss Helen Peden and Norrington in three sets.

In the men's handicap singles, Forbes meets Jimmy Norrington in the semi-finals, the winner to meet Gordon Cross. This event is expected to be finished today.

Results of Sunday's matches follow:
Men's Singles—T. Forbes defeated A. McBride, 6-2, 6-4, 6-1.
Men's Doubles—Forbes and Burgess defeated Harrison and Kenwick, 6-8, 6-4, 6-0, 6-4.
Mixed Handicap Doubles—Miss Lea and Cammisa (scr.) defeated Miss Hughes and Bird (minus 30 1-2), 6-3, 6-6 (semi-final); Miss Lea and Cammisa (plus 2-3 1-2) defeated Miss Peden and Norrington (scr.), 3-6, 6-2, 6-4 (final).

Governor Pays Pauper's Fine
UNIONTOWN, Pa., Aug. 9.—For killing a "flicker," a bird protected by game laws, to feed her hungry family, Mrs. Anna Chase was sentenced to twenty days in jail in default of a fine payment. She was freed today, after five days' imprisonment, when Governor Pinchot, hearing of the case, paid the fine and costs, \$17.90.

Charity Workers Are Well Paid
LOS ANGELES, Aug. 9.—Clashes between David Hutton, husband of Aimee Temple McPherson Hutton, and the deceased head of her Angelus Temple commissary, revealed today Temple charity workers get 30 per cent of all funds they collect. "I can't get that much as manager of the Temple," said Hutton.

KILLED ON THE TRACK
SASKATOON, Sask., Aug. 9.—Believed to have been killed when attempting to board a freight train, an unidentified boy, between sixteen and seventeen years of age, lying late last night. The cap which the boy was wearing, had been purchased from a Calgary merchant.

OLYMPIC MAT CHAMPS NAMED
Sweden Captures Four Individual Titles—Kokkinn Double Winner

LOS ANGELES, Aug. 9.—Winning four individual titles, Sweden today held the Olympic crown in wrestling, which permitted hold only above the waist.

Champions crowned are: Bantamweight—Jakob Brendel, Germany.
Featherweight—Giovanni Gresi, Italy.
Lightweight—Eric Maiberg, Sweden.
Welterweight—Ivar Johansson, Sweden.
Middleweight—Bavino Kokkinn, Finland.
Light-heavyweight—Rudolf Svensson, Sweden.
Heavyweight—Carl Westergren, Sweden.

Johansson successfully defended his 1928 title. Johansson became a double winner, having won the middleweight catch-as-catch-can championship last week.

A record in winning the Olympic middleweight crown in 1920 and the lightweight belt in 1924. Four years ago he was injured in a heavy-weight match and was forced to withdraw.

Gas in the Stomach Is Dangerous
MONTREAL, Aug. 9.—The Government inquiry into the explosion and fire in which thirty-one lives were lost aboard the British tanker Cymeline in Canadian waters dock here, June 17, was resumed today under the presidency of S. SAANICH FAIR PLANS READY

Sixty-Fourth Annual Fall Exhibition to Be Held September 13 and 14

The sixty-fourth annual Fall Exhibition of the North and South Saanich Agricultural Society will take place on Tuesday and Wednesday, September 13 and 14, at Saanich. The prize list, which has just come off the press, shows that a total of 487 classes are open to competition in the twenty-four sections.

As usual, the sports programme and Highland events, always the great drawing cards of the fair, will take place on the Wednesday, and as some very fine prizes are offered and interest in the dancing events particularly has been very much on the increase in recent years, some take place on the Wednesday.

FINE TROPHIES
Among the trophies offered in connection with the sports to be run off on the same afternoon are the David Spencer Challenge Cup, the Saanich Board of Trade Challenge Cup, the W. O. Wallace Challenge Cup, open for competition among the schools of North and South Saanich and James Island.

In the twenty-three sections open to exhibitors are classes for horses, cattle, sheep, swine, goats, rabbits, poultry, eggs, grains, grasses and seeds, field roots and vegetables, bottled fruits, etc.; dairy produce and household articles, ladies' work, money, amateur photography, school work and Indian work.

THE COMMITTEES
Following are the committees in charge of the respective sections:
Horses—Alan Calvert, J. R. Scooby, Cattle—H. C. Oldfield, Captain C. J. Wilson, T. K. Harrop, George W. Malcolm and J. J. White.
Sheep and Swine—Claris Moses, Alan Calvert.

Rabbits—Gavin Jack and E. Greenwood.
Poultry—C. H. Borden and C. L. Sytan.

Grains and Grasses—G. T. Mitchell and J. A. Nunn.
Field Roots for Stock and Potatoes—W. D. Mitchell, George Little and J. M. Malcolm.

Vegetables—J. A. Nunn, G. T. Mitchell, G. Little, J. M. Malcolm and J. J. White.
Fruit—D. H. Heyer, H. E. Tanner, Fred Turgoose and Lionel E. Taylor.

Flowers—Mrs. B. M. Deacon, Mrs. H. Hughes, Mrs. J. J. White, Charles Toomer, Mrs. C. White-Birch and Miss H. Horth.

Jams, Bottled Fruits, etc.—Mrs. W. Mitchell, Miss E. Jeanne, Mrs. W. G. Deacon, Mrs. W. Wilkinson, Mrs. A. McKenzie and Mrs. J. Barker.

Dairy Produce and Household Arts—Mrs. R. E. Nimmo, Mrs. F. Turgoose, Mrs. L. H. MacQueen, Mrs. G. W. Malcolm and Mrs. Jack Sluggitt.

School Work—Mrs. R. D. Pope, Mrs. R. C. Farber, Miss M. MacKenzie, Miss C. M. MacNab, W. C. Ozard, Miss J. Bagley and Miss Dora Heap.

Amateur Photography—Collin Frame, Mrs. R. D. Pope.
Indian Department—James E. Nimmo, J. A. Nunn, Arthur Jeanne, Pete Turgoose, Ralph Bagley, A. Sansbury and W. Turgoose.

Highland Events—R. E. Nimmo, D. Cameron, J. H. Dewar, R. Brydon, A. G. Smith and Ian Douglas.

Jimmy McLarnin After Return Go With Brouillard
NEW YORK, Aug. 9.—Jimmy McLarnin has changed his mind about leaving for the West Coast this week and will stay around while to see whether he can get a return bout with Lou Brouillard.

McLarnin was outpointed by Brouillard in their ten-round match here last week, but the Vancouver Irishman thinks he will do better the next time he faces the young American battler. Few fighters have beaten McLarnin twice.

INQUIRY IS RESUMED
MONTREAL, Aug. 9.—The Government inquiry into the explosion and fire in which thirty-one lives were lost aboard the British tanker Cymeline in Canadian waters dock here, June 17, was resumed today under the presidency of S. A. Baile, civil engineer appointed by the Dominion Government to conduct the investigation.

Victoria Downs Duncan Tennis Team by 11 to 4

Averaging their 8 to 7 defeat at Duncan earlier in the season, the second-string players of the Victoria Tennis Club downed their Up-Island opponents 11 to 4, at the Willows courts Sunday and into the lead in their section of the Vancouver Island Tennis League.

Singles
Huxtable beat Mutter, 6-3, 3-6, 6-1.
Hole beat Dobell, 6-4, 6-2.
Parker beat Whan, 6-3, 6-2.
Backler beat Robinson, 6-3, 4-6, 7-5.
Dunbar beat Anderson, 6-1, 4-6, 6-3.

Doubles
Taylor beat Whan, 6-4, 6-2.
Huxtable beat Robinson, 6-2, 7-5.
Hole lost to Anderson, 6-3, 6-4.
Parker beat Whan, 6-2, 6-2.
Backler beat Mutter, 6-1, 2-8, 6-3.
Dunbar beat Dobell, 6-4, 6-2.
Taylor lost to Landie, 8-6, 6-2.

Handicap
Huxtable and Backler beat Mutter and Landie, 6-4, 8-6.
Default to Robinson and Anderson.

Feature
Parker and Taylor lost to Dobell and Whan, 5-7, 6-4, 6-4.

SOMERSET XI DOWNS ESSEX
Score Single Wicket Victory in County Cricket—Notis Defeat Lancashire

LONDON, Aug. 9 (CP).—Coming from behind, Somersetshire scored a meritorious victory over Essex by the narrow margin of one wicket in a county cricket match concluded today. Nottinghamshire defeated Lancashire by 124 runs, and Sussex won the first innings from Kent.

Surrey gained a six-wicket victory over Middlesex in a high-scoring game, while Northamptonshire beat Hampshire by 113 runs. Leicestershire and Worcestershire were ahead on the first innings against Warwickshire and Glamorganshire, respectively.

The touring All-India team, in a friendly match at Bristol, defeated Gloucestershire by 55 runs.

Closing scores follow:
Essex, 303 and 131 (White five wickets for 37 runs); Somersetshire, 26 and 172 for nine wickets (Young 61, Brown five for 55).

Nottinghamshire, 232 and 245 for eight (declared); Lancashire, 221 and 132 (Tyldesley 51, Larwood five for 51).

Sussex, 264 and 363 for seven wickets, declared (J. Langridge 104, Parts 149, not out); Kent, 222 and 241 for five (Hardinge 55, Ames 52).

Middlesex, 141 and 455 (Hendren 145, Sims 103, Hearn 61, Brown five for 81); Surrey, 540 for nine, declared, and 57 for four.

Northamptonshire, 255 and 251 (Jupp 61, Baile 62, Herman five for 47); Hampshire, 217 and 174 (Pothecary 60 not out, Jupp seven for 60).

Warwickshire, 250 and 376 for four (Wyatt 131, Croon 103, Santall 61, not out); Leicestershire, 279.

Glamorganshire, 131 and 397 (Avery 116, Dyson 103); Worcestershire, 266 and 165 for eight); Gloucestershire, 320 and 341 (Dacre 95); All-India, 236 and 390.

Wilson, Owens Wins Yarrow Cup Bowling
Wilson and Owens, of the C.P.R. club, won in the finals of the Yarrow Cup competition, staged at the Crystal Garden greens.

Following is a record of the games played in this competition:
First Round
Mossey and Brown 15, Baxandall and Lister 11.
Shields and Taylor 14, L. Campbell and Rose 8.

Wilson and Owens 16, Mossey and Breckinridge 12.
Sholt and Wallace 8, Tutill and Wright 24.

Alexander and Harris 19, Johnson and Brown 12.
Davy and Sherwood 16, Mitchell and Wood 14.

Dixon and Armstrong 12, Ozard and Booth 17.
Myers and Washington 16, Marconini and Renfrew 19.

Brown and Brown 10, Swainland and Phillips 9.
Harman and Findlay 14, Spencer and Gibson 17.

Harman and Findlay 22, Chesworth and Bennett 7.
Pyfe and Robertson 10, Spencer and Gibson 15.

Haywood and McNeill 15, Hughes and Mayne 14.
Stewart and W. Wallace 18, Davidson and A. Stewart 9.

Mossey and Brown 12, Childs and Taylor 19.
Wilson and Owens 15, Tutill and Wright 9.

Ozard and Booth 12, Deveson and Renfrew 14.

CLOUDY SKIES SHORTEN VIEW

Visiting Astronomers Spend Evening at Dominion Observatory

With difficulty, in fleeting glimpses through drifting clouds, some of the more persistent of the visiting European astronomers last evening at the Dominion Astrophysical Observatory, Little Saanich Mountain, viewed Beta Cygni, one of the few celestial objects of interest visible with the seventy-two-inch telescope.

This, the first evening visit to the observatory, was disappointing in respect of the weather, but the guests seemed to find numerous subjects of interest to compensate for the programme of star-gazing which had to be canceled owing to the bad visibility.

The director, Dr. J. S. Plaskett, and other members of the observatory staff, answered innumerable questions concerning the equipment, and Dr. W. E. Harper explained, in connection with the photographs of spectra, how the distances of the stars were determined by the relative density of the lines. Dr. J. A. Pearce, Dr. and Mrs. F. S. Hogg and Dr. C. S. Beal, of the observatory staff, were also present to explain the use of the instruments, equipment, or work.

The beautiful balance and wonderful steadiness of the giant telescope were commented on by the visitors.

METEOROLOGICAL WORK
Yesterday morning the scientists visited the Dominion Meteorological Observatory, Gonzales Hill, where Napier Denison devoted nearly two hours to showing them something of the work which is being done there.

The seismographic work and the use of the measuring of wind velocities were of special interest to the visitors. The old Milne

PLANETARIUM SHOWN
Eighteen of the visitors and several members of the Dominion Astrophysical Observatory staff and of the local centre of the Royal Astronomical Society of Canada were present.

The dome of the Astrophysical Observatory, to be revisited early this afternoon, and an informal causerie is to take place. Visiting astronomers will be invited to give review of work on which they are engaged, and members of the Saanich observatory staff will also probably contribute something to the discussions. The Victoria centre of the Astronomical Society is again serving tea.

His Honor the Lieutenant-Governor and Mrs. Fordham Johnson will entertain several of the visitors at dinner at Government House this evening.

Librarian Tells What Is Meant by a "Good Book"

Miss Jessie Gay Van Cleve, of American Library Association, Chicago, Indicates Ideals Which Should Dominate Children's Books

In respect of its suitability for a child's reading, what is a "good book?"

Miss Jessie Gay Van Cleve, of the American Library Association headquarters, Chicago, did not answer the question with any pat definition when it was addressed to her during her visit here yesterday. But her reply had probably much more value by being indirect and carrying implications.

"The child's book should have a story with a good plot, and the story should be well told. But it should also show development of the characters throughout the story, development which at the same time brings out some salient ethics. Children should never be left in doubt as to whether a thing is right or wrong. And there should always be obvious justification of goodness or strength of character."

she commented. By "goodness" she emphasized that she did not mean the wishy-washy emotional child hero or heroine, whose mission was to renovate the world.

"I don't believe children can set the whole village straight, and that type of child certainly wouldn't belong in any book classed as a good book for children," she affirmed. Furthermore, any story which placed emphasis on wealth and social position was wrong for girls' reading, just as any story which played up ardent daring and bravado and the social promotion of the poor boy, was vicious reading for boys.

NUMEROUS PUBLICATIONS

There is evidently no dearth of new books for children according to Miss Van Cleve. A few years ago well-illustrated American books for children were needed to compete with the foreign picture books. American publications show evidence of progressive education, and particularly in respect of informational books the standard is improving, although there has been, perhaps, so much anxiety to supply that there has not always been quite such critical discernment used in their selection as there should have been.

"There are more of what one may classify as 'good books,' but the ratio of 'excellent' books is still about the same," Miss Van Cleve says. She would not make any snap statement about the effect of numerous libraries and widespread reading in developing a precocious literary taste in children. More than that, she thought that reading just for the pure achievement of reading was a mistake.

Recreational reading was just as important a part of a child's education as informational reading. One of the functions of the children's library section of any public library should be to stimulate the child's interest toward the personal possession of books.

CHILDREN'S LIBRARY

Her own special interest is the children's library. This is the indirect reason for her visit to Victoria, as she and Miss Margaret Clay, head of the Victoria Public Library, trained at the same time at the Pratt School at Pittsburgh, which has sent out more trained children's librarians than any other library school in existence.

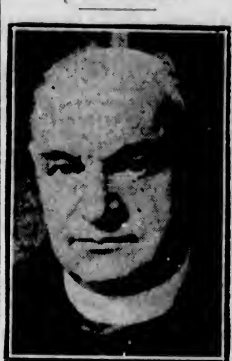

The big stores, private libraries and schools show gratifying readiness to accept advice and suggestions from trained librarians, and in innumerable instances actually seek assistance. One of the big Seattle department stores, noted for its fine selection of children's books, had sought such advice when opening the department, emphasizing that in making up the list, expense should not be considered "as the department was a public service and not intended as a source of profit."

Women's clubs, hospitals for children, and other groups also frequently sought advice. At the Gillette Memorial Hospital at St. Paul, Minnesota, children's librarians, with a full-time librarian, is an essential part of the hospital equipment, and even bedridden patients are wheeled in occasionally just so that they can imbibe the library atmosphere. Miss Van Cleve says that one of her most interesting audiences was a group of sixty or seventy nurses at the Chicago Children's Memorial Hospital, who took a lecture course in children's reading.

Miss Van Cleve has just finished giving two six-week courses in the Summer School at the University of Oregon, one in children's literature.

DR. INKSTER COMING HERE

Former Victoria Pastor to Preach Twice in First United Church

REV. DR. J. G. INKSTER

Rev. Dr. J. G. Inkster, pastor of Knox Presbyterian Church, Toronto, and minister of First Presbyterian Church here from 1913 to 1921, will arrive in Victoria this week on his first visit to this city since he went East eleven years ago.

Dr. Inkster will preach in the First United Church next Sunday morning and evening, and on Monday night in the church he will give an illustrated lecture on "Palestine." Sunday, August 21, he will be the pulp guest and preacher in the First Presbyterian Church, Seattle, one of the largest Presbyterian churches in the world, of which Knox Church, Toronto, has been the pastor.

On his trip through Western Canada, Dr. Inkster paid visits to various sections of mission fields, which Knox Church, Toronto, has been helping.

SPOKE ON MAINLAND

Last Sunday Dr. Inkster addressed large congregations in Centennial Presbyterian Church, Vancouver, the services marking the third year of the pastorate of Rev. J. M. Macgillivray, B.A.

Dr. Inkster, who was minister of Knox Church here when the present edifice was erected, is recognized as a pulp orator throughout Canada, and is assured of a hearty welcome by members of his former congregation here and many other friends in the city. During his pastorate in Victoria, he preached to big congregations.

NAME DELEGATES FOR CONVENTION

Saanich Selects Representatives for Annual Convention in Duncan

Saanich Conservative Association will be well represented at the annual convention of the Federal Conservative organization for Nanaimo riding, which is to be held in the Odd Fellows' Hall, Duncan, on Saturday, September 3.

At a meeting of the Saanich association, held last night, the following were named as delegates to attend that gathering: Mrs. F. P. Osborne, Henry Holmes, Mrs. H. Lawrie, Major W. G. Cunningham, Mrs. C. Todd, P. Appleby, Mrs. F. Spence, Mrs. C. Streech, Mrs. Henry Holmes and Mrs. W. O. Wallace, W. O. Wallace, as president of the association; A. H. Spurr, secretary; and A. R. Sherwood, a member of the executive, are also members of the convention without election.

Reports were received at the meeting, which was presided over by W. O. Wallace, president, with respect to the annual picnic. There was a good financial balance. Mrs. Osborne, the convener of the picnic committee, and the ladies who assisted in making it the great success which it proved, were heartily thanked for their services.

ON TOUR OF CANADA

WINNIPEG, Aug. 9.—M. Jallu, Battalionier General of the Bar of Paris, France, passed through here on his way to attend the Canadian Bar Association meeting in Calgary. Accompanied by Madame Jallu, he is making a comprehensive tour of Canada, which included a two-day visit at Ottawa. Before going to Calgary, they will also make a visit to National Park, and later on to Alaska.

Privacy of Home Life Is Probed

Privacy of home life is no longer inviolate since the city water commissioner installed pressure gauges in his downtown office and at home.

This gauge has revealed secrets hitherto unknown to the general public. For instance, it has been discovered that the Saturday night bath tub, an institution generations old, is a thing of the past and that Rockland Avenue residents have taken to 4 o'clock afternoon bathing and showers.

Afternoon teas are fast diminishing and are now being replaced by bridge suppers. Every day is wash day and the hour chosen by most housewives is 6:30 a.m.

These and many other domestic matters are now being revealed in the red tracings on the gauge card as the pressure in the feeder mains rise and fall.

BOAT ACCIDENT AT SHAWNIGAN LAKE TAKES TWO LIVES

Continued From Page 1

widely separated. Later they were seen close together and then disappeared.

Wilfred was a strong swimmer and had won laurels in many swimming meets, while Miss Gilliland also could swim fairly well. It is believed, however, that one of the swimmers may have been injured when precipitated from the boat and that the other was drowned while endeavoring to effect a rescue.

Wilfred was to have celebrated his twenty-first birthday today and preparations had been made to make the occasion an enjoyable one.

WERE WELL KNOWN

The young couple were well known in Victoria. Marjorie was employed in her father's real estate office. She was a member of the Metropolitan Church, with which the family has long been identified. A brother and a sister are both in the teaching profession in this city. News of the fatality was received by many friends of the family with profound regret.

Besides her parents, Mr. and Mrs. W. J. Gilliland, Marjorie is survived by four sisters, Effie, Mabel, Clara and Helen; and two brothers, Harry and Gordon.

Wilfred Francis was well known in aquatic circles. He was the son of Mr. and Mrs. F. W. Francis, the former a jeweler and member of the Gizeh Shrine Temple. Besides his parents, he is survived by one brother, Hubert, and two sisters, Betty and Veronica.

Provincial Police Constables Service and A. T. Lashair and Constable Jack Blacklock, of the city police, assisted in the dragging operations.

KILLED BY SAW

EMO, Ont., Aug. 9.—Delbert Hamilton, nineteen, was instantly killed when a motor-driven saw caught a piece of timber he was sawing and hurled it with terrific force, hitting the youth below the heart.

CONDUCTOR OF BAND RESIGNS

Frederick T. Highfield, Leader of Girls' Band for Twenty Months, Relinquishes Duties

The Victoria Girls' Band has received one of the severest blows in the history of its organization in the resignation of Frederick T. Highfield, who for the past twenty months has acted as its bandmaster.

Mr. Highfield stated last evening that owing to the repeated inability of the members to attend rehearsals and engagements, he found it impossible to carry on, and intimated that he would organize a band of his own, to be composed of both boys and girls under twenty-one years of age.

Under Mr. Highfield's leadership, the Victoria Girls' Band has made exceptional progress. Mr. Highfield gave unstintingly of both his services and his personal funds to aid in the work.

Astronomers Are Guests at Tea at Government House

Members of the visiting party of European astronomers were the guests of His Honor the Lieutenant-Governor and Mrs. J. W. Fordham Johnson at tea at Government House yesterday afternoon. Received in the drawing-room, which was profusely decorated with flowers, the guests, after presentation, proceeded to the dining-room for tea and later onto the terrace to see the view. His Honor and Mrs. Fordham Johnson were attended by Major Selden Humphreys and Mr. A. M. D. Fairbairn.

Among the visiting astronomers who enjoyed the occasion were Sir Frank Dyson, Astronomer Royal, of Greenwich, England, and Lady Dyson; Dr. F. W. Aston, F.R.S., Trinity College, Cambridge; D. Carder-Davies, F.R.A.S.; D. Duncan, president B.A.A., Glasgow branch; W. Goodere, F.R.A.S.; W. Hall, D.Sc., F.R.A.S.; Professor C. Horn d'Artois, director of Bologna Observatory; H. Knox-Shaw, director of Radcliffe Observatory, Oxford, and president of the Royal Astronomical Society; Professor Th. Niethammer, Astronomer Anstalt, Basel University, Switzerland, and Mrs. Niethammer; A. D. Thackeray, King's College, Cambridge; Miss G. Freeth, member of the Royal Institute; M. Paul Heilbronner, vice-president of the Astronomical Society of France, and Mlle. E. Heilbronner; Dr. Charles Mayer and Mrs. Mayer; Miss Kathleen Murray, Cape of Good Hope; Miss E. P. Noel, member of the Royal Institute; W. W. White, Mrs. Roberts and Miss K. Williams.

Victoria guests invited to meet the distinguished visitors included Dr. and Mrs. J. S. Plakett, Mr. and Mrs. J. A. Pearce, Mr. P. H. Hughes, Mr. and Mrs. Napier Denison, Mr. and Mrs. W. S. Drevy, Mr. and Mrs. W. E. Harper, Mr. and Mrs. C. S. Beale, Mr. J. Duff and Mr. and Mrs. F. H. Elliott.

"PLAYING CRICKET"

One secret of Britain's great recuperative power is in the loyal support her people give a government they trust. Upholding the hands of authority in times of crisis is more than half the battle. It is the spirit of co-operation and the will to triumph. Britain did that in an intensified way when it was decided to suspend the gold standard. She did it again with enthusiasm and loyalty when the call went out for early payment of income tax in order that the Government might secure ready money. Once again the call has been responded to in the great Conversion Loan of £2,000,000,000. This means a reduction on the interest rates on bonds from five to three and a half per cent; in other words, a loss to the investing public.

The British people figure that the Government would not have asked for such a sacrifice unless a national demand for it existed. They have the opportunity of redeeming their bonds or converting them at the lower interest rate. It is symptomatic of the spirit of the British people that ninety-five per cent of them should have chosen the latter course. They have done so promptly and patriotically, with a right good will. The Conversion Loan has been a monumental success, and once again Britain has shown that she does not "muddle through" but takes great decisions in a great way. Here is the comment of The Montreal Gazette on the success of the Conversion Loan and on other demonstrations which the British people have given of their determination to support loyally the leadership that is theirs:

"Happy is the nation that can play cricket in its electorate the people who can 'include' in this patriotic fashion and make no great fuss about it, but go through the innings with a smile. John Bull is not going to be bowled out, nor caught out, nor put out leg before, wicket, nor stumped, so long as he can count upon a team of this sort to put into the field. It is gratifying to note that the nation which has the reputation of 'muddling through', is not dealing at random with its problems, but, gifted with sound common sense and far-sighted judgment, is ready at any critical juncture to make sacrifices in behalf of the all-round welfare and future progress of the British Commonwealth."

A CENTURY'S WORK IN MEDICINE

Some conception of what medical science has achieved during the past century has been recalled by Sir Leonard Hill in a survey that he presented to a centenary meeting of the British Medical Association. Everyone knows that physiological knowledge has advanced enormously, but it may be doubted if enough credit is given to the skill, trained courage and the genius of the medical fraternity. Where medicine has advanced more than in any sphere is in guarding and strengthening humanity against disease. That is even a greater task than the curing of disease once it has been contracted. There was a time when the medical profession enjoyed its chief encomiums because it gave back health. Now, as well, it saves health. In his review, Sir Leonard Hill says:

"Patients affected with diabetes, a fatal disease, are kept well by the daily injection of insulin, an active principle discovered in the pancreas, a sufficiency of which they lack. There are thousands of people now walking about in good health who would speedily die if their supply of insulin were suddenly cut off, say, as the result of a revolution.

"Pernicious anaemia, another deadly complaint, has been cured by daily administration of the membrane of the stomach and liver which contains an active principle necessary for the health of the blood.

"Surgery has been helped forward immensely by the discovery of the X-rays. By their use fractured bones, foreign substances when swallowed, internal abscesses and tumors can be made evident; test meals containing bismuth can be taken, and their passage along the alimentary canal followed, so that the locality of disease may be found and operative measures of relief made possible.

"Radium has been introduced as an alternative to the knife in the treatment of cancer; the great importance of early diagnosis and early removal of cancer has been made clear.

"In the old days people lived on natural foods, but they often suffered from shortage, and endured scurvy owing to the want of fresh vegetables and fruits in the winter. In these days the supply is ample, and fresh food is obtainable in quantity all the year round, but too much meddling with the natural food by millers and cooks still goes on.

"By the discovery of vitamins, the necessity of securing all the active principles of natural foods has recently been made clear; the need for a reform in dietetics is now in process of being learnt. A disease like rickets and the curse, now almost universal, of decay of the teeth, can be stopped by proper attention to diet and access to open air and sunlight. The new fashion of sun-bathing, properly controlled, will do great good, and not only right choice of food, but abstinence from over-feeding is necessary."

Sir Leonard believes that diseases of the heart and blood-vessels, respiratory diseases and rheumatism must be combated by better discipline of life, better ventilation of rooms, less stagnant heat, better chosen diet, greater temperance in food, less strain and more rest in daily life. He says: "The methods of physical medicine have come to replace very largely the bottle of medicine. Through preventive medicine in its broadest sense mankind can obtain health and happiness."

AN EXPLODED THEORY

Mr. J. L. Garvin explodes the official theory held in the United States that if war debts were cancelled British and French armaments would be virtually subsidized by the American taxpayer. As a matter of fact Germany would be the sole beneficiary. Britain and France, says Mr. Garvin, would lose something on balance. "They would not have more means but less to pay for armaments." Here is Mr. Garvin's comment on the possible implications of cancellation: "In the circumstances the American taxpayers might possibly find themselves, to their astonishment, subsidizing the restoration of the Hohenzollerns, but could not, in any circumstances, pay a cent towards British defence or French security. If this truth were more widely known across the ocean, the world's moral air would be cleared. That disposes of any logic in the argument so persistently employed by President Hoover that further disarmament should proceed any discussions on reconsideration of war debts.

The sun's eclipse on August 31 will again be an event during which Einstein's curvature of space theory will be tested. The test is to be made at Fryeburg, Maine, by a group from Georgetown University headed by Dr. Paul A. McNally. It is only possible, so far, to test the theory during the period of the sun's eclipse, and often, even then, weather conditions interfere. Dr. McNally says the expedition will not be actually testing whether space is curved but only if rays are curved as Einstein says. There has never been any finality in proof. In previous eclipses some observers have claimed to have found the curvature, while others have denied any such observation.

Commenting on the Imperial Conference, The Detroit News says: "This is not a sentimental meeting, but one of hard facts, in which individual nationalism will guard itself but will endeavor to find avenues of approach to the general good of the whole Commonwealth. There is to be no pageantry other than that of the formal meetings, and entertainment is to be kept down to a scale proper to the times. Certainly these people seem to be going about this thing in a spirit which indicates a willingness to deal with realities in an optimistic spirit. The Britisher, of whatever land, will be seen in his best role of cool, hard-headed business purpose."

When economy was being discussed in the British Parliament recently one member, Sir Reginald Mitchell Banks, said he had never put down a question on the order paper because each question cost the country from 30s to £2. The members of Legislative Assemblies who prate about economy are sometimes those who put the country to the greatest expense. The records of our own Legislature are a case in point. We have a plethora of insolent questioners, ninety per cent of whom interrogate for reasons of political propaganda without ever worrying about the cost they impose on the taxpayers.

Mr. J. S. Woodsword, Labor M.P. for Winnipeg North Centre, is the leader of the Co-operative Commonwealth Federation, a Socialist party just formed at Calgary and an amalgam of United Farmers and Laborites. In Mr. Woodsword the new party will have as its head the most valuable politician in the country. He costs the Dominion thousands of dollars annually by the pages of Hansard he fills.

CONDITIONS IN THE U.S.A.

The United States came out of the war enormously aggrandized, having supplied the Allies with the entire course at their own war prices; then they washed their hands of the rest of the world, put up fences about their markets, and let the cash come in—and it came. For ten years all was like a fairy tale, and then the diseases of a stricken civilization began to spread in this land of plenty. Is there a country today more dangerously disorganized, or one which seems less able to cope with its own disorganization? It feels indeed no menace from outside, but unless its own organs of publicity mislead the world, it has good reason to fear internal disaster, resulting from the prodigious advertisement of all the channels for distribution of these millions. The plain fact is that the United States thought it could do without the rest of civilization; and it cannot, yet it will not readjust itself to this fact—Stephen Gwynn in The Fortnightly Review.

The Weather

Meteorological Office, Victoria, B.C., at 8 p.m., August 9, 1932.

SYNOPSIS
The barometer remains low on the Northern Coast, and rain has been general southward to Oregon. Fine, hot weather extends from the Rockies to Manitoba.

Portland—Barometer, 29.96; wind, S.W., 6 miles; raining.
Seattle—Barometer, 29.92; wind, S, 10 miles; raining.
San Francisco—Barometer, 29.88; wind, W, 20 miles; clear.

Note and Comment

By R. B. D.

All government, indeed, every human benefit and enjoyment, every virtue and every prudent act, is founded on compromise and barter.—Burke.

History, which is indeed little more than the register of the crimes, follies and misfortunes of mankind.—Gibbon.

An American who migrated to Great Britain and became a merchant prince declares that democracy has proved a failure. This statement was made by the successful business man after a visit to his native country and reviewing the political and general conditions there. It was not a sensational statement because it was not a new view of the fruits of democracy. It was not a wholly true statement either, because democracy has not proved a complete failure, although it has proved a comparative failure in a country where it was established under "auspicious circumstances" and was expected to prove an outstanding success. The principles of democracy are undoubtedly sound, although they may prove defective in practice when applied under conditions which they cannot be effectively applied.

It has been said that "you cannot make a silk purse out of a sow's ear." In order to make anything of value you must have the right kind of material to work with or upon. Democracy has proved a complete failure in Italy, in Germany, in several other countries which need not be mentioned, and a comparative failure in the United States and France, because the people of those countries seem to be lacking in at least some of the qualities necessary to the complete success of democracy. Democracy has proved at least a comparative success in Great Britain and more or less a success in the British Dominions because people of British lineage have inherited some of the qualities which are necessary to make self-government a success.

The democracy of the United States is undergoing a severe test at the present time because it is suffering intensely from a disease of the body politic popularly called "rackets." In the United States there are so many racketeers being conducted by professional racketeers that the very foundations of the democracy seem to be menaced. There are rum racketeers, prohibition racketeers, sport racketeers, political racketeers, business racketeers (conducting raids upon business houses), patriotic racketeers (masquerading as "returned soldiers"), unemployed racketeers—and sometimes we fear there are even religious racketeers—most of them conducting raids upon the nation at large and some of them upon the national treasury.

In Great Britain there has been but one attempt to organize a "racket." When the Labor Government was in power for a brief period there was an effort to organize a racket in the guise of a general strike, and the whole of the nation rose as one man and almost as one woman and suppressed it without violence and without loss of life. This is one modern instance in which the principle of democracy survived the ordeal. It will be a long time before there will be another general strike in Great Britain.

In Canada we have not so thoroughly evaded the consequences of our continental environment. We are not completely immune from the disease of rackets. The disease (or whatever it may be) has drifted across the line and become epidemic in spots. Political rackets have broken out and brought a certain amount of discredit upon Canadian politicians. That affair of the Beauharnois, for example, was creditable neither to the Canadian people nor to the principles of democracy. The Canadian people have not lost faith in the Senate which sits at Ottawa, but the Senators do not stand as high in the esteem of the people as they once did nor as they should do considering the average calibre and character of the members of the Upper Chamber. And the opposition of another and later racket indicates that the chamber has not been completely purged of its black sheep.

Rackets of still another kind have also become manifest in Canada. There seems to be a disposition in this country, as in the United States, to regard raids upon the Dominion treasury as quite legitimate and justifiable rackets. This form of racket is not confined to individuals or organizations. It has developed into a provincial game. Or perhaps we should say it

has become a Western provincial game. Provincial governments which have wasted their substance upon rash and extravagant economic experiments are even now on their way to Ottawa for the purpose of demanding that the Dominion government shall rescue them from the consequences of their doubtlessly good intentions but lamentably bad judgment.

We fear it is even possible that the Imperial Conference in session at Ottawa is slightly menaced by the presence and activities of certain racketeers. If that supposition is true, it is clear that the democracy of the Empire will have to be guided and supported by firm hands, even as the democracy of Great Britain was supported and directed, if it is to be the success we all hope and trust it will be. The menacing racket at Ottawa is not being conducted entirely by foreigners either. The representatives of British and Canadian Liberal newspapers are allied with representatives of United States and other foreign newspapers in the desperate game of misrepresentation and innuendo designed to frustrate the efforts of the advocates of Imperial preferential trade.

The Rhyming Optimist

By Aline Michaels

TO R. H. T.
They can never be said, all the tender things
That are hidden away in my thoughts of you;
For your smile is the fount from which
My gladness springs.

And your look gives me courage and cheer again.
Your hand is the one that has led me on
When I would have faltered and
When my spirit has shown me the
promise of dawn.

While the shadows of night still
about me pressed.
Oh, I had not a hope whose bright
glances gleamed.

But you gave those wings the
sure strength to soar,
And there is not one dream that
my soul has dreamed,
But you were deep in the
dreamer's hid core!

They can never be said; but you
know them all.
The love and the faith that will
never die,
Till the last star leaves from the
last twilight fall.

FIFTY YEARS AGO TODAY

(From The Daily British Colonist of August 10, 1882)

Thunder and lightning—A very unusual phenomenon in this neighborhood is thunder and lightning. Last evening there were vivid flashes and loud peals, accompanied by a slight shower. It is reported that the storm caused three houses to take flight and run away.

New Restrictions—It has been reported that the British Government refuses to permit volunteers to wear their uniforms beyond the limits of the United Kingdom. This means that should a detachment travel into the United States to compete in a shooting match, they must wear civilian clothes.

Public Meeting—The Mayor has called a public meeting for Tuesday next, at the City Hall, to consider and adopt suitable measures for receiving His Excellency the Governor-General and the Princess Louise.

A Chevalier Legacy—Word has been received from Montreal announcing the death of Major Wm. Mills, a native of Victoria. The deceased, who was seventy-six years of age, leaves \$100,000 to charities, stipulating that no drinking or smoking will be tolerated in colleges receiving his bounty.

EXHIBITION OF CARS PLANNED

Dealers Complete Arrangements for Show During Fair at Willows

Arrangements were completed yesterday, at a meeting of the Victoria Automobile Dealers' Association for the holding of the annual automobile show in conjunction with the Provincial Agricultural Association's fair at the Willows from August 22 to 27.

At a meeting held yesterday, the number of dealers who will display, with the total number of cars to be entered, was drawn up. Eight garages have taken floor space, and their displays will occupy 19,475 square feet of floor area. All the advanced models will be on display, and in addition to the usual demonstrations of free wheeling, floating power and other engine features there will be many interesting exhibits showing the latest developments in interior fixings, such as smokers' conveniences, women's valets' outfits and dashboard contrivances.

LIST OF EXHIBITORS

The list of those who will exhibit follows: National Motors, Ltd., Ford automobiles and trucks; Begg Motor Company, Ltd., Plymouth and Dodge cars; A. W. Carter, Ltd., Hudson and Essex cars; H. A. Davis, Ltd., Buicks; Cecil Eve, Pontiac cars; Jamieson Motors, Ltd., Studebaker and Rocker; Thomas Plimley, Ltd., Packard, Chrysler and De Soto, and The Motor House, Chevrolet.

L. de S. Duke, of the National Motors, Ltd., is president of the association, and Major P. T. Stern is secretary. Both report that the show this year will be an outstanding success.

APPLE DAY TO BE HELD HERE

Work Board of Y.M.C.A. Will Hold Canvass on October 15

Hoping that an apple a day will keep depression as well as the doctor away, W. H. Webber, chairman of the boys' work board of the Y.M.C.A., announced last night that the association would hold its Apple Day on October 15.

Apple Day is a form of tagging instituted here by the local Y.M.C.A. by which, instead of the customary tag, a contributor to the fund receives a nice big juicy apple.

Last year's canvass was one of the most successful of this type of campaign ever held here and was handled by the board of directors of the association. The coming drive will be under the auspices of the boys' work board and gratifying returns are expected by this body.

Sinclair Is Given More Honor Than Really Deserved

Finds Courtesy Reaching High Pitch in Public Utility Systems of Japan but Considers Agricultural Methods Rather Archaic

By GORDON SINCLAIR
KYOTO, Japan. — Smiling city of silk and shrines and swimmers. Real swimmers. They swim around in a muddy moat which circles Kurama Temple and grow fat on scraps of this and that tossed in by pilgrims. Some day they'll be yanked aloft and fried in a pan which is the way with suckers.

GORDON SINCLAIR

The two-hour journey from Kobe to Kurama, original K.K.K. towns, can be a fascinating hop if old man curiosity doesn't let you down. I had to lean over like a giraffe to find the ticket girl, who sat on a black milking stool just off the floor. "The railway is greatly honored by your patronage and hopes you will have a pleasant journey," she cooed, when I bought a ticket. "Thanks a lot."

The train wasn't in yet, so I strolled around among milling passengers, who swarmed the station with incredible loads of labeled luggage.

There was a big blackboard in the foyer for people who got separated from their friends and wanted to leave a message. One read: "I tried it twice and it wouldn't fit at all. I even broke the elastic. I'm going home to get the old one and will catch the next train." A.S.

At 10:06 the loud speaker blared out. "The Kyoto express has arrived on time, and will depart at 10:16. Will honorable passengers please take their places." I went through the wicket with the gang. The ticket collector bowed to all of us for your patronage.

Upstairs the train was a picture of home. Exactly the same as our trains, except there were wide streaks along the coaches, while for first-class, blue second, and red third.

I didn't know what class the girl had given me, so sauntered toward first. The head guard almost tripped over his shiny sword as he tapped me on the shoulder, bowed stiffly and said: "May we humbly point out honorable sir that first-class travel is for the august household of His Imperial Majesty the Emperor—you will find comfortable accommodations just here."

BLUE ACCOMMODATION
He steered me back of a blue label. There was a white-coated Englishman there with two dogs, four gorgeously-dressed Japanese girls and some army officers. At 10:16 the guard sang out: "Sorry to have kept you waiting. The train is now about to start." Talk about your jolly old politeness. They sure work it over time here. The train was scheduled to push off at 10:16, and did, but still the professional apologist had to do his apologizing.

We roled away from the smoke of Kobe into the open country. Every spare inch was cultivated. With the cities so up-to-date they almost get ahead of themselves. They're 500 years behind times here. Men were mucking around in the rice beds trying to plow with cows on strings. Women were cutting wheat with tiny little scythes, and others were threshing the wheat by knocking the sheaves on wooden things that looked like saw horses.

At the first stop school children swarmed the train. They all dress alike in Japan; military uniform for boys, middie and blue skirts for girls. The girls seem to have enormous feet. They look far better in kimono. The soldier boys stood chattering and laughing in the third-class cars, as we swung around pine-clad hills. Some had their noses pressed against the glass, and were examining me intently. I looked back and chuckled. They chuckled, too. It was a cinch to see they were hatching some plot.

Finally one of the lads, blushing to the roots of his raven black hair, came in and sat down near me. "I'm Basil," he said. "I got a European name." That's right, so you have. "You're a foreigner. We've been told to be polite to foreigners because they don't know much and can't talk to our people." The boys made me come because I talk the best foreign. I been foreign I have. I've been to Scotland, that's how I got called Basil. My mother calls me "Taro San."

"Taro San suits you better," I grinned. "You stick to that." "Oh, Basil," he said. "It means 'honorable master'." "Oh, yes, because I'm going to grow up to be a soldier and serve the Emperor, and bring great honor to my ancestors." "That's the way to talk, Basil." He was still blushing furiously, and the other kids in the back were fighting for a place at the window to see their own hero talking "foreign" with the foreigner.

The girls up front were quite absorbed, too, and kept watching. When the boy spied them he said: "Are you going on a picnic?" "No; just to Kyoto to see what its like." "But those are honorable geisha young ladies. Aren't you taking them on a picnic?" "No, not my lucky day—but that might be an idea."

ABOVE THEIR STATION
"But somebody is taking the geisha young ladies on a picnic." He looked at the Englishman with the white suit and dogs. "Must be that honorable foreigner." "But how do you know somebody is taking the geisha girls on a picnic?" "Oh," he said quietly, "You have been rude. It is rude to say geisha girls. You honor them by saying geisha young ladies." "I'm terribly sorry, Basil—but how do you know about the picnic?" "Why, the honorable ladies travel in this car much above their station. Someone must have sent the geishaya many yen for the tickets." "So that's it—but tell me, Basil." "We were running into a station and the lad was up ready to go. 'You've got funny eyes,' he said as

a parting shot. 'They haven't any color left.' 'Too bad, Basil, but I can see pretty good. Would you like to buy ice cream for the boys?' He came back shyly. I gave him two coins, and could hear his breath suck itself in. "A whole yen; but honorable sir, our honorable teacher said to always be polite and helpful." "Sure," I laughed. "Have a good time." The train only stopped a minute, but that was long enough for the lad to show his coins. The whole battalion stood on the station platform and screamed a high hosanna for the honorable foreigner. I felt pretty important.

EXIT "LADIES"
The "geisha young ladies" did a bit of eye droop work behind their fans, and I was commencing to like Japan more every minute. However, they got off at Osaka, and an older woman, with two babies, took their place. The babies cried in the terror of the train. We ran in to Kyoto promptly on the dot, and I was again thanked for my gracious patronage.

At a public meeting tonight, at the City Temple, the platform of the People's Party will be put forward. Mr. Armishaw claims to have behind him and his party many of the prominent business men of the province, and even the monetary institutions, he says, approve of his plans, and are ready to assist. For thirty-five years he has been working in the interests of the Farmers' party and now feels that the time has come for united action to bring about a new order of things.

LEADER OF NEW PARTY IS HERE

J. E. Armishaw, Head of People's Organization, in Victoria on Fusion Mission

J. E. Armishaw, president of the United Farmers of Canada, British Columbia section, and leader of the new People's Party, which is the offspring of the United Farmers' organization in this province, is in Victoria. He is here for the purpose of attempting to coalesce the many independent parties which are springing up throughout the country and bring them under the banner of the People's Party.

Mr. Armishaw is accompanied by the working executive of the party, Thomas Catherwood, the secretary of the organization, and John MacLean, the official organizer. They are staying at the Dominion Hotel, and during the next day or two will hold conferences with some of the leaders of independent political bodies here, with the idea of bringing about a fusion.

PROMISES MEETING
At a public meeting tonight, at the City Temple, the platform of the People's Party will be put forward. Mr. Armishaw claims to have behind him and his party many of the prominent business men of the province, and even the monetary institutions, he says, approve of his plans, and are ready to assist. For thirty-five years he has been working in the interests of the Farmers' party and now feels that the time has come for united action to bring about a new order of things.

ADVOCATES COMMISSIONS
One of the outstanding innovations that Mr. Armishaw would introduce, if he were elected to assume the premiership of the province, would be the election by the reduced Legislature of a public utilities commission of five business experts, which would control the number of life-saving was given by W. T. Stanyon, who also thrilled the crowd with some fancy diving and swimming. The oceanist also advocated the elimination of speculation and graft. Basic industries would be established by the utilities commission immediately in the line of steel, iron and woolen works. Farmers would be helped

onto the land under a "use lease" system and would be helped by the Government in fencing, dyking, etc. A marketing board would be constituted to act as an import and export body similar to the liquor board.

In the matter of financing, cheap money would be obtained, according to Mr. Armishaw, on the issue of bonds, which would be deposited with the Federal Department of Finance as security for Federal currency. The Provincial Government and municipalities would be given the same borrowing privileges as now extended to banks.

THREE ANNUAL PICNICS HELD
Fraternal Organizations, Deep Cove and Gorge
Three fraternal organizations held their annual picnics on Saturday. They were the Majestic Council No. 1513, Royal Arcanum, at Deep Cove; the Victoria Buffalo Lodge, at Esquimalt Lagoon and the Loyal Order of Moose, at the Gorge Park.

A programme of twenty-five sport events, including softball, provided the afternoon entertainment of the Royal Arcanum picnic. The single men won the softball game against the married men by a score of eighteen to fourteen. After the evening meal, the prizes were presented.

The committee which arranged the picnic was composed of the following members: James Stewart, chairman; Fred Willis, A. Hill, Daniel Miller, Gordon MacKintosh, W. Jones, Louis Michelin, E. La Leleur, W. Carter, David Noel, William Erickson, Harry Short, Douglas Park, Kenneth Hughes, C. Stocker and Alex Speller.

AT ESQUIMALT LAGOON
There were twenty-one events on the Buffaloes' sport programme, the majority of which were for children. A pleasant time was enjoyed by the gathering. Some enjoyed swimming in the lagoon, which almost any day during the summer is warm.

Approximately 400 hundred members of the Loyal Order of Moose attended the Gorge picnic. A well-attended programme of sports was held, after which a demonstration of life-saving was given by W. T. Stanyon, who also thrilled the crowd with some fancy diving and swimming. The oceanist also advocated the elimination of speculation and graft. Basic industries would be established by the utilities commission immediately in the line of steel, iron and woolen works. Farmers would be helped

onto the land under a "use lease" system and would be helped by the Government in fencing, dyking, etc. A marketing board would be constituted to act as an import and export body similar to the liquor board.

In the matter of financing, cheap money would be obtained, according to Mr. Armishaw, on the issue of bonds, which would be deposited with the Federal Department of Finance as security for Federal currency. The Provincial Government and municipalities would be given the same borrowing privileges as now extended to banks.

SPONSOR TWO SHOW EVENTS

Horse Jumping Will Test Skill of Many Local Riders

Two of the most interesting and thrilling events on the Horse Show programme for the B.C. Agricultural Association's fair at the Willows, August 22 to 27, have been made possible through the courtesy of Commander C. H. R. Slingby and the firm of Scott & Peden, it was announced yesterday by W. H. Means, secretary of the association.

The events are of particular interest to Up-Island riding clubs, which are planning to send a strong string of competitive entries.

DIFFICULT JUMPS
The horses will be ridden over jumps; the first a four-foot hurdle with six inches of brush; the second a four-foot post and rail; the third a four-foot triple bar to be ridden twice and fourth a four-foot triple bar down the centre. Performance only will count in this event.

Jumpers' Grafton Board Jump is the event that has been sponsored by Scott & Peden. In this event horses will be ridden over one jump of two feet of timber with brush, with pastboard boxes on the far side. The event will start with twelve boxes, which will be extended until but one horse has failed to clear the boxes.

LAST RITES TODAY
Funeral services will be held this afternoon at 3 o'clock, from the Sands Mortuary Chapel, for Mrs. Emily Jane Summers, who passed on Sunday at the Jubilee Hospital. Interment will take place in Royal Oak Burial Park.

HEARING IS COMMENCED
Preliminary hearing of a statutory charge against Walter William was commenced in city police court yesterday morning and afternoon. Several witnesses had been heard and an adjournment was taken until this morning. The accused youth was represented by Stuart Henderson, and C. L. Harrison appeared for the prosecution with P. J. Sinnott. The young man has been elected by Judge and jury.

PRESENTED CUP FOR GOLF MATCH
Kiwans Club Gave Impromptu Programme at Luncheon Gathering Yesterday
The programme at the Kiwans Club luncheon yesterday was more or less of an impromptu affair. During the proceedings the Humphreys Cup was presented to Arthur Corwell, the winner of the tournament last Wednesday. His net score was 74. Thomas Kelway, the runner-up for the trophy, with a net score of 75, was awarded a prize. An explanation was offered that a mistake had been made in the naming of another as the runner-up. W. MacKenzie, with the lowest gross score of 80, and with the highest score, and R. Dick for the highest in one hole were all awarded prizes.

In addition to the presentation of the prizes, there was community singing, and a duet by Thomas Kelway and Archie Gibbs.

Fred McCreagave gave a humorous reading on the blessings of depression, and Rev. Dr. Clem Davies, who was a visitor at the luncheon, gave a short impromptu address.

Just Roamin' Around
BY TWO ROVERS
We intended to write about cricket, anyway, today; but, first of all, we wish to thank the very kind friends who wrote so sympathetically to us on the subject so near to our hearts, and on which we touched yesterday, namely, "reading."

Our engaging correspondent suggests that we hire ourselves out to the Australian cricket team, who will be here again on August 16 and 17, to fetch and carry for them when they are practising hard drives to the outfield; and, that after fielding some hundred or more slops to the off, and amidst the estimation of our fellows, especially of the feminine persuasion, and be a slimmer, trimmer and narrower than we can be said to be at present.

Noble lady, or gentleman! though you did not sign your name, your interesting and sensible advice shall be followed; if we cannot get permission to help the groundsman roll the pitch, which is good for reduction of surplus adipose tissue, we will take your advice.

BUY TICKETS FOR GAMES
There are only a few days left in which to get your tickets for the two great cricket matches at the University School grounds on August 16 and 17; so, get busy and make all your arrangements to attend on Tuesday and Wednesday next to see the Australian in the world's most famous cricket. Let the garden go for one or two days! Let the kids come with you; it is good for the youngsters to see the cleanest and most sporting of all games, and it won't hurt you to give your golf for the two days that the Australians are here!

Don't wait till the last moment to decide to swell the crowd that will go out to the University School cricket grounds on the 16th and 17th. Buy your tickets ahead. Take the family! And applaud all the good plays on both sides. There won't be any poor play; no, sir, for, the Australians are "it," and only make good strokes, field well, and bowl balls that take a deal of hitting. On the other hand, our own batsmen are no duffers at the hitting game when they get started. They are good Britishers and love the good old British game, the Empire's game, cricket!

What Today Means

"LEO"
If August 10 is your birthday, the best hours for you on this date are from 8:10 a.m. to 10 a.m., from 3 p.m. to 4 p.m., and from 9:50 p.m. to 11 p.m. The danger periods are from 12:30 p.m. to 2:45 p.m., and from 7 p.m. to 8:30 p.m.

Astrological conditions on August 10 will be good from a social point of view, love affairs and marriage. Work in general may be unusually small. The wrong treatment in business affairs will lead to serious disappointments, unless tactics are changed in time.

The child born on this August 10 will have a tameless nature, and, until the age of adolescence, will be a veritable madcap. It will not always be a scatter-brain, however, and when the real demands of life are thrust upon its shoulders, it will seriously wake up. It will win easy popularity, and will be both natural and friendly.

You are a slow thinking man if born on August 10, although quick in action. You may be slow in putting "two and two" together, but your finished patterns, mental and otherwise, are not faulty in construction. You are one of those persons who rise slowly to the occasion, and the limit of your power seems to be defined by the greatness of the need. You stand by ready to do your part whenever and wherever life seems to give you your cue to act, and you seldom have to be prompted.

If you be a woman, you are undeniably capable. You go forward on your own initiative, and do not need or care to be towed by the energy of a more progressive party. You are not an appropriator of ideas, and take the trouble to think long and hard for yourself. You are "hard" in a business way, but are unselfishly tender and sympathetic in the role of a friend, wife or mother.

If married, you will always keep to the feeling that "Go East, go West, your home is best." You regard your home as a "sanctum" whither to flee from the world's affairs, and you do your part to make it bright and "comfy." Work will be your first love, but not your last one.

She—Fancy! There's a paragraph about me in Flippant Notes and they call me one of fashion's butterflies.

He—From the way you go through your clothes, I should think moths would be nearer the mark.

Better than the highest priced oils •• Here is the Proof •••

Point for point the New Marvelube outclasses the highest priced and best known of competitive oils. We have proved this beyond a doubt. Here is the evidence:

THE FOLLOWING SCORE CARD TELLS THE STORY OF THE NEW MARVELUBE'S SUPERIORITY

OIL	Horse power and fuel economy (Points)	Low Oil Consumption (Points)	Low Carbon Deposits (Points)	Clean Valves and Stems (Points)	Stability (Points)	Total Score (Points)
NEW MARVELUBE	100	100	100	100	100	500
Best Competitive Oil	98	63	68	91	92	412
2nd Best Competitive Oil	95	85	85	47	79	391
3rd Best Competitive Oil	99	84	68	46	90	387
4th Best Competitive Oil	98	88	81	40	76	383
5th Best Competitive Oil	98	56	78	65	79	376
6th Best Competitive Oil	97	33	40	64	95	329

Whether you change oil every 500 miles or every 2,500 miles, you will get better results with the New Marvelube. Most automobile manufacturers recommend changing oil every 500 miles because oil gets dirty in use and accumulates road grit and other injurious substances.

It is better because it is purer. Better at high temperatures because there is nothing in it to break down or disintegrate. It is all oil. Better at low temperatures because those properties which make oil sluggish when cold have been removed. Better under constant punishment because those compounds which cause carbon, gum and sludge to form in motors have been eliminated. You can see its purity. It is clear, clean, golden. No other oil is pure enough for your car.

The New Marvelube
PUREST OF MOTOR OILS

MADE IN CANADA BY IMPERIAL OIL LIMITED

DENTAL Attention
Has Never Cost So Little
If your teeth are not in satisfactory condition, have your dental requirements attended to now. Well-Known Bank's
Celebrating Century
Of Gradual Progress

Nova Scotia Maritime Institution Grows Into National-Wide Banking Corporation Since Founding in Halifax One Hundred Years Ago

THIS month a great Canadian banking institution celebrates its hundredth anniversary. Founded at Halifax in 1832, the Bank of Nova Scotia has risen from a local Maritime institution (one of the first of its kind in Canada) to front rank among Canadian chartered banks. International in scope, it now ranks fourth in point of assets among all Canadian banks. Its 330 branches stretch from coast to coast in the Dominion and include Newfoundland, England, the West Indies and the United States.

SMALL BEGINNING
The bank first opened its doors to the public in a room in John Roman's building, on Hollis Street, Halifax. In August, 1832, Scotia itself at that time was but a small British naval port of 15,000 inhabitants, whose muddy streets converged at the waterfront, where seafaring commerce was carried on. Its only banking facilities were a private banking partnership, started seven years previously and known as the Halifax Banking Company, which wielded a political and financial monopoly over the province. It was, in part, to break this monopoly that the Bank of Nova Scotia was organized by a coterie of local business men, headed by William Lawson, who held their first organization meeting at the Merchants' Exchange Coffee House in Halifax in December, 1831.

OPPOSES MONOPOLY
In those days yearnings towards responsible government were being felt in many parts of the continent. Although the movement did not fully materialize in Nova Scotia until 1837, under the brilliant leadership of Joseph Howe, the fight for incorporation by the Bank of Nova Scotia against the "Family Compact," as the Halifax Banking Company was called, was definitely instrumental in molding the political destiny of the province. Joseph Howe signed the original petition for incorporation of the bank, and for years kept an account there. Thus, the Bank of Nova Scotia was the first chartered bank in Nova Scotia, its charter being modeled on that of the Bank of New Brunswick (founded in 1820 and later absorbed by the Bank of Nova Scotia).

FIRST DIVIDENDS
The bank's first annual statement, presented to shareholders in February, 1833, showed that four liabilities: capital stock paid in, \$50,000; notes in circulation, \$16,613 10s; deposits in the bank, \$18,943 13s 10d; and net profits in hand, \$310 7s 8d. Total assets were \$85,868. An item of \$158 8s 3d being the "balance in the hands of the agents of the bank in New York and London" reflects the dealings in foreign exchange banks. The bank declared its first dividend on July 31, 1833, at the rate of 3 per cent per annum. Early progress was slow. Branches, or agencies as they were then called, were opened in many parts of the province in the first decade of the bank's existence, but were closed subsequently from lack of business. It was not until a young Scottish banker named Thomas Fyvie took over the position of cashier in 1876 that real progress and expansion were evidenced. He bluffs, he pretends. He bluffs. He makes people think he is what he is not. If you should come upon him suddenly he would flatten his head and neck and make himself twice as ugly appearing as his dangerous cousin Buzztail the Rattlesnake. He would hiss at you louder than any of his relatives can hiss. He might shake the end of his tail and make Buzztail do his, and he might even strike at you. He would do everything he could to make you afraid of him, and he would do it because he was afraid of you. It would all be bluff, pretending to be what he isn't at all, for he couldn't harm you if he wanted to and he wouldn't anyway. Even if he struck at you he wouldn't bite you. He isn't at all what he tries to make you think he is. And it is all done, as I said before, because he himself is afraid and doesn't want you to know it.

Old Mr. Toad had gone on his way, hop, hop, hippity-hop, hurrying as fast as he could despite the heat. Danny Meadow Mouse had turned back towards the old board under which Bluffer hid his dangerous cousin Buzztail the Rattlesnake. He had been under there for some time. He had crept under the board to take him just as Old Mr. Toad was taking him. But he was not afraid of Bluffer, for the latter does not eat mice.

When he reached the old board almost the first thing he saw was Bluffer's head peered out from under one end of the old board. "Hello, Bluffer!" said Danny. "I haven't seen you since last Summer." "I haven't seen you since last Summer," replied Bluffer. "I am not exactly staying here. I spent the night here and now I am trying to make up my mind which way to go to look for a dinner, and when I

Bluffer the Adder, sometimes called Blow Adder and sometimes Puff Adder, but whose proper name is Hog-nosed Snake, is one of those unfortunate who is almost misunderstood by those he meets. He has a bad reputation, has Bluffer. Yes, sir, he has a bad reputation. While one of the most harmless members of the Snake family he has the reputation of being one of the most dangerous. It is his own fault. There is no one to blame but himself. You see, he pretends. He bluffs. He makes people think he is what he is not. If you should come upon him suddenly he would flatten his head and neck and make himself twice as ugly appearing as his dangerous cousin Buzztail the Rattlesnake. He would hiss at you louder than any of his relatives can hiss. He might shake the end of his tail and make Buzztail do his, and he might even strike at you. He would do everything he could to make you afraid of him, and he would do it because he was afraid of you. It would all be bluff, pretending to be what he isn't at all, for he couldn't harm you if he wanted to and he wouldn't anyway. Even if he struck at you he wouldn't bite you. He isn't at all what he tries to make you think he is. And it is all done, as I said before, because he himself is afraid and doesn't want you to know it.

Old Mr. Toad had gone on his way, hop, hop, hippity-hop, hurrying as fast as he could despite the heat. Danny Meadow Mouse had turned back towards the old board under which Bluffer hid his dangerous cousin Buzztail the Rattlesnake. He had been under there for some time. He had crept under the board to take him just as Old Mr. Toad was taking him. But he was not afraid of Bluffer, for the latter does not eat mice.

When he reached the old board almost the first thing he saw was Bluffer's head peered out from under one end of the old board. "Hello, Bluffer!" said Danny. "I haven't seen you since last Summer." "I haven't seen you since last Summer," replied Bluffer. "I am not exactly staying here. I spent the night here and now I am trying to make up my mind which way to go to look for a dinner, and when I

RECORD OUTPUT
OF GOLD SEEN

Year 1932 Will Be Banner One for High-Value Ore in Canada

Striking evidence of the growth of Canada as a gold producer is presented in a report on "Gold in Canada," issued by the Mines Branch of the Department of Mines, Ottawa, now available.

Canada has been a producer of gold since 1858, the report shows, during the past fifteen years is well in excess of that for the preceding sixty years, despite the fact that on several occasions during the longer period the annual output exceeded \$10,000,000, and at times reached \$25,000,000.

The industry has been establishing new production records annually since 1923, and shows every indication of repeating the performance this year. Few countries are in as favorable a position in respect to unexplored and undeveloped possibilities, and Canada may be expected to hold its place as one of the largest gold producers for some time to come, it is predicted.

DESCRIBE GOLD STANDARD
One of the features of the report is a brief discussion of the gold standard. For purposes of trade, it is stated, it is desirable to measure all commodities by the same standard of value, and because of this the unit chosen should not be subject to changes in its relationship to the whole body of commodities by reason of undue changes in its abundance or otherwise.

The report reviews the gold mining industry of Canada and describes each operating property. Statistical records and industrial descriptions are prefaced by short discussions of the physical and chemical properties of gold, its rarity and mode of occurrence; the history of the world's production, and Canada's present place amongst the world's producers; the types of ore from which it is produced, and the history of its production in Canada.

The report is complementary to one recently published by the Geological Survey on gold occurrences of Canada. Copies may be had by applying to the Director, Mines Branch, Department of Mines, Ottawa.

Langford Tennis Tourney to Open Friday Evening
LANGFORD, Aug. 9.—The annual tournament of the Langford Tennis Club will close Thursday at 7 o'clock. The events will be: Men's singles, open and handicap; women's singles, open and handicap; mixed doubles, open and handicap; mixed doubles, open and handicap. Trophies offered in the open events include the Le Queuse Cup for men's singles, now held by H. C. Bennett, and the Wenger Cup for mixed open doubles, now held by Mrs. A. P. Bayles and H. C. Bennett.

T. O. Guy and E. F. Le Queuse will receive the entries and manage the tournament. Any event with less than four entries will be scratched. The evening matches will start at 5:30 o'clock. The girls' open tournament will start as early as possible, and the boys' open tournament after August 20.

The next story: "A New Built and an Old One."

City & District

Concert Canceled—The band concert scheduled to be held in Beacon Hill Park this evening has been canceled, it was announced last night by W. H. Warren, superintendent of parks.

To Meet Council—A delegation from the Board of Commerce will wait upon the City Council at 7:45 o'clock Monday night, to discuss the question of the removal of trees from city boulevards.

On Annual Leave—Chief of Police Thomas Healey left on his annual leave yesterday, and will be absent from the city for two weeks. During his absence, Detective Inspector Jack McEllen will be acting-chief.

To Hear Application—Hon. N. S. Lougheed crossed to Vancouver yesterday to preside at a meeting of the Provincial Export Committee, which will hear an application for the export of 3,500,000 feet of logs, today, in Vancouver.

City Gets Bill—The April account for Victoria patients in Essondale Mental Hospital was submitted to the Provincial Board of Health by the Municipal Government, it amounting to \$3,080.50. The annual cost of this social service work to the city is \$38,996.

To Review Evidence—A private meeting of the Esquimalt Police Council will be held at the Municipal Hall tonight, commencing at 7:15 o'clock. The meeting is being held for the purpose of reviewing evidence submitted to the commission sitting as a court of inquiry into charges against Chief of Police Delmar Hodnett.

Night-Blooming Cactus—A night-blooming cactus came into flower yesterday at the home of Senator and Mrs. R. F. Green, Rupert Street. On previous occasions the cactus has always bloomed during the night, but this time the petals uncured early in the morning and by noon it had closed again. The plant is a particularly fine and large one and is growing in a tub on the veranda.

Will Co-operate—The Real Estate Board and the various service clubs of the city are asking their members to co-operate with the Chamber of Commerce in the quarterly luncheon meeting which is being held at noon on Friday, when the speaker will be a representative of St. Louis, Missouri, who will speak on "Present Retail Credit Problems and Latest Methods of Credit Granting." The luncheon is being held in the Chamber of Commerce auditorium.

British Columbia Cherries Praised—Shipment of British Columbia cherries made to the United Kingdom on July 12, landed in England in first class condition, and found a ready sale. T. G. Coveney, B.C. markets representative, reported yesterday to the Department of Agriculture, British Columbia logs were also reported gaining in demand, as one result of recent visits of touring parties from the British Isles, who inspected Island and Mainland berry plants.

Burgess Bedtime Stories

Bluffer Explains
—By THORNTON W. BURGESS

Though their intentions may be good, some people are misunderstood. Bluffer the Adder.

Bluffer the Adder, sometimes called Blow Adder and sometimes Puff Adder, but whose proper name is Hog-nosed Snake, is one of those unfortunate who is almost misunderstood by those he meets. He has a bad reputation, has Bluffer. Yes, sir, he has a bad reputation. While one of the most harmless members of the Snake family he has the reputation of being one of the most dangerous. It is his own fault. There is no one to blame but himself. You see, he pretends. He bluffs. He makes people think he is what he is not. If you should come upon him suddenly he would flatten his head and neck and make himself twice as ugly appearing as his dangerous cousin Buzztail the Rattlesnake. He would hiss at you louder than any of his relatives can hiss. He might shake the end of his tail and make Buzztail do his, and he might even strike at you. He would do everything he could to make you afraid of him, and he would do it because he was afraid of you. It would all be bluff, pretending to be what he isn't at all, for he couldn't harm you if he wanted to and he wouldn't anyway. Even if he struck at you he wouldn't bite you. He isn't at all what he tries to make you think he is. And it is all done, as I said before, because he himself is afraid and doesn't want you to know it.

Old Mr. Toad had gone on his way, hop, hop, hippity-hop, hurrying as fast as he could despite the heat. Danny Meadow Mouse had turned back towards the old board under which Bluffer hid his dangerous cousin Buzztail the Rattlesnake. He had been under there for some time. He had crept under the board to take him just as Old Mr. Toad was taking him. But he was not afraid of Bluffer, for the latter does not eat mice.

When he reached the old board almost the first thing he saw was Bluffer's head peered out from under one end of the old board. "Hello, Bluffer!" said Danny. "I haven't seen you since last Summer." "I haven't seen you since last Summer," replied Bluffer. "I am not exactly staying here. I spent the night here and now I am trying to make up my mind which way to go to look for a dinner, and when I

How Canadians Fared Yesterday At Olympic Games

Swimming
Men's 100-Metre (second round): Second heat—first—Walter Spence, Montreal, fifth (eliminated).
Men's 800-Metre Relay Team:
Final—Canadian team, composed of George Larsen, Hamilton; George Burrows, Vancouver; Monroe Bourne and Walter Spence, Montreal, fourth.

Women's 100-Metre Back Stroke (first round):
Second heat—Ruth Kerr, Windsor, third (eliminated).
Third heat—Marjorie Linton, Toronto, third (eliminated).

Men's Singles (first round):
Third heat—Joe Wright, Jr., Toronto, third.
Yachting
Monotype—Reg Dixon, Toronto, first.
Star—Windsor, skippered by H. E. Wylie, third.

Boxing
Flyweight—Jackie Callura, Hamilton, lost by decision to Louis Salo, United States.
Welterweight—Tony Mancini, Montreal, lost by decision to Bruno Ahlberg, Finland.
Lightweight—Frank Genovese, Toronto, won decision over Eduardo Vargas, Argentina.

Mr. Patterson—I don't like Mrs. Patterson. She's so sly and deceitful.
Mrs. Patterson—Doesn't she tell the truth?
Mr. Patterson—That's the trouble. Every time I'm certain she's lying I find that she isn't.
"When I am big, mamma, I'm going to marry a doctor or a minister."
"Why, my dear?"
"Cause if I marry a doctor I can get well for nothing, and if I marry a minister I can be good for nothing."

TWO B.C. PLAYERS ADVANCE IN CANADIAN GOLF

Canadians Defeat U.S. 5-4 to Even Lacrosse Series

Dominion Representatives Show Fine Form to Take Second Game of Exhibitions at Olympic Sports—Deciding Match on Friday

OLYMPIC STADIUM, LOS ANGELES, Aug. 9 (CP)—Canada's all-star lacrosse team came from behind today and evened at one game each their Olympic Games demonstration series against Johns Hopkins College, representatives in the amateur lacrosse game.

Canadians won 5-4, the same score as was against them yesterday, when the first of the series games was abandoned.

Shaded by the fast Americans for more than half the contest, the collected proteges of Coach "Grumpy" Spring got together late in the second period and in a drive for victory netted three quick goals, which wiped out a 4-0 deficit and put them in the van. Worthing, hard-shooting centre, sniped the tying and winning corners.

The win makes the final game of the series Friday the deciding contest. The teams are not only tied in games won, but in goals scored as well.

A long-passing game by Johns Hopkins threatened to break down the Canadian defence in the first half, and only the brilliant goal-tending of Frank Hawkins and Dick Buckingham's staunch checking held the white-garbed collegians at bay.

The Canucks attack lacked cohesion of any sort, most scoring sallies coming on individual rushes that bumped squarely into the strong United States defence.

But when Worthing, "Red" Fraser, Duke Harrison and Matt Rohmer began to race goalwards, passing

short and hard, the American guard wilted.

Stude made some remarkable saves near the game's end to keep this quartette from a mounting total. Darrel gave the United States the lead in five minutes of the first half play, shooting at close range after a three-man rush. Harrison tied the count before the period ended on "Red" Fraser's pass.

Stone gave America the lead again in the second half, and Walter Mercer equalized, before the brilliant United States attack got down to business with a pair of quick goals. Turnbull got the first and Stone the second, the Canadian defence becoming disorganized in the face of the swift-moving rush.

Mercer put Canada in the running with a low shot from twenty feet out that eluded Stude, and Worthing put the finishing touches to the Canadian comeback with two high drives. First he fired after taking Harrison's assist, and he tucked outside the goal crease, snaring "Stew" Clifford's pass. The game was rough in stages, Canada drawing eight penalties and United States five. Line-up:

United States—Stude, Merriken, Reynolds, Yearly, Weitzel, Lake, Packard, Darrell, Turnbull, Guild, Stone, D. Kelly, Suba, McDorman, Beiler, C. Kelly, Knier, Stone.

Canada—Hawkins, Buckingham, Mercer, Bergin, Clifford, B. Fraser, Merritt, G. Fraser, Wallace, Rohmer, Gair, Harrison, Suba, Baker, Galbreath, McQuarrie, Paguin, Russell, Spring, J. Fraser, Pelletier.

JAPAN SWIM STARS SHINE AT OLYMPICS

Win 800-Metre Men's Relay by Wide Margin Over States in Fine Fashion

CANADIANS OUT IN OTHER RACES

By ELMER DULMAOE Canadian Press Staff Writer.

LOS ANGELES, Aug. 9.—Swimmers from Japan—there are more of them at these Olympic Games than from any other country, including the United States—today recorded another smashing victory by leading its rival teams to a finish in the 800-metre men's relay. Canada was fourth, not nearly as far behind the American and Hungarian teams, second and third-place winners, as the second team was behind Japan.

George Larsen, Hamilton, Ontario, and the Montreal pair, Monroe Bourne and Walter Spence, swam well for the Dominion, but they could not keep up with the Japs, who beat the United States by half the pool length. Each man swam 200 metres. Great Britain was fifth, Argentina sixth and Brazil seventh.

The morning events saw three more Canadian swimmers lose out in bids for Olympic titles.

SPENCE OUT

Walter Spence was eliminated in the semi-finals of the 400-metre swim, placing fifth in the second semi-final, which was won by Buster Crabbe, of the United States. The other semi-final was won by T. Yokoyama, a Japanese star.

Both Ruth Kerr, flashy collegiate mermaid from Windsor, Ont., and Marjorie Linton, of Toronto, were eliminated in the women's 100-metre backstroke. Miss Kerr was third in her heat, while Miss Linton placed third in her initial event.

Miss Linton swam the distance in 1:29.5-10 to take third place behind M. Philippen-Braun, of Holland, and Joyce Cooper, of Great Britain. Only third-place swimmer, Miss Linton, was in trouble. The four hits of the next round was P. Harding, of Great Britain, clocked in 1:23-10. She was third to Eleanor Holm, of United States, and P. Mealing, of Australia. Miss Holm's time, 1:18-3-0 broke the world record made early this year by Miss Harding.

JACOBS REINSTATED

By New York Dukes

NEW YORK, Aug. 9 (AP)—Joe Jacobs, manager of Max Schmeling, former world heavyweight champion, was reinstated by the New York State Athletic Commission today after a brief suspension following Schmeling's defeat by Jack Sharkey.

Sharkey was set down by the commission for shouting into a microphone at the close of the fight broadcast that he and his warrior had been "robbed." Suitable apologies and discussions at the commission brought an end to the punishment today.

JACOBS IS FREE TO NEGOTIATE with Madison Square Garden for a match between Schmeling and Mickey Walker here in September.

Q.M.S. HENRY BURTON

at Victoria, who was transferred to Calgary recently, who was the St. George's team at the Dominion Rifle Association meeting here today.

The first range of the match, 300 yards, was fired yesterday, with the marksmen finishing up at 600 yards today. Both Sweet and Vaines had scored possibilities at the first 300 and finished up with one point short of the perfect score.

Behind the leaders came nine other marksmen with 98 and eight more with scores of 97.

The leading Western Canadians in the bankers were:

Cpl. L. C. Willoughby, Victoria, 98; Lieut. G. A. Molecey, Winnipeg, 98; Lieut. W. Worwick, Winnipeg, 98; C.S.M. C. Heasman, Vancouver, 97; Major J. H. Cathcart, Winnipeg, 96.

Pte. S. M. Grant, Victoria, 96.

R.C. SCORES

Other British Columbia scores follow:

Capt. D. R. Blair, 96; Sergt. B. Drysdale, 96; Capt. D. Fyvie, 94; S.M. W. Ruffell, 94; Sergt. A. E. Ash, 94; Sergt. T. R. Davies, 94; Sergt. J. H. Regan, 94; Master Gunner H. Collins, 93; Pte. E. Shroobree, 93; Sergt. T. W. Hall, 92; Q.M.S. A. E. Evans, 92; Sergt. J. Nicholson, 92; Major F. Richardson, 91; Major F. Gardiner, 91; Miss G. Spencer, 94.

In the Walker match seven shots at 300 and 800 yards, scores of 65 were in the prize list. British Columbia scores were:

Sergt. T. R. Davies, 69; Sergt. B. Drysdale, 68; Cpl. L. C. Willoughby, 68; Pte. E. Shroobree, 68; Capt. D. Fyvie, 67; Master Gunner H. Collins, 67; Sergt. J. H. Regan, 67; S.M. W. Ruffell, 67; Cpl. L. C. Willoughby, 67; Capt. D. R. Blair, 67; Q.M.S. A. E. Evans, 65; C.Q.M.S. C. Heasman, 65; Sergt. A. E. Ash, 65; Sergt. T. W. Hall, 65; Pte. I. M. Grant, 64; Major F. Richardson, 64; Major F. Gardiner, 64; Miss G. Spencer, 63.

In the Borden match, ten shots in fifty seconds at 300 yards, scores were:

Sergt. J. H. Regan, 45; Sergt. A. E. Ash, 44; Sergt. B. Drysdale, 43; Sergt. T. W. Hall, 43; S.M. W. Ruffell, 41; Cpl. L. C. Willoughby, 41; Capt. D. R. Blair, 32; Sergt. T. R. Davies, 30.

MONTHLY MEDAL TO BE PLAYED AT UPLANDS SUNDAY

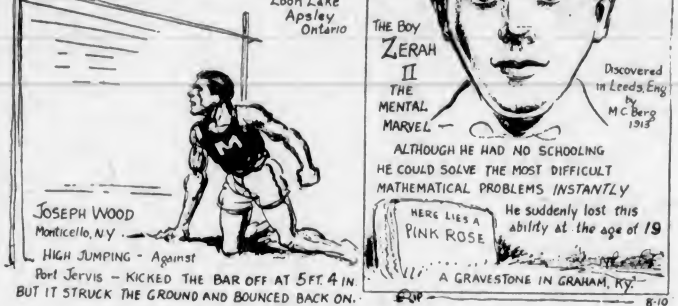

The monthly medal competition will be played at Uplands on Sunday, and the conditions will be match play against par with three-quarters of the handicap allowed. Competitors will select their opponents and arrange their own starting time. Two prizes will be awarded the two best scores.

Pittsburgh Suffers Tenth Consecutive Defeat in National

Blanked by Boston Hurler and Lead Cut to Half a Game—Cubs Within Striking Distance by Win—Ruth's 32nd Homer Wins for Yankees

NATIONAL LEAGUE

BOSTON, Aug. 9.—Huck Betts, star right-hander for Boston, shut out the Pirates 4-0 today, giving the Braves their third win in a row over their league leaders and the Pirates their tenth straight defeat.

Betts was in rare form and was never in trouble. The four hits obtained by the Pirates were scattered over as many innings.

Pittsburgh..... R. H. E.
Boston..... 0 4 0
Batteries—Kremer, Harris, Spencer and Grace; Betts and Hargrave.

Cubs Near Top

NEW YORK, Aug. 9.—Chicago Cubs got within striking distance of the National League lead, only a half-game behind the wabbling Pittsburgh Pirates, as they came from behind in the ninth inning today to defeat the Giants, 4 to 3.

Up to the last stanza Carl Hubbell had a slight edge in a mound duel with Bud Tinning. But with two out in the ninth and a runner on second, Hubbell dropped Terry's loss to first and then threw wild to the plate and let the tying run score. Woody English then singled to send R. H. E. home with the winning tally.

PHILADELPHIA, Aug. 9.—St. Louis Cardinals made it three straight over the Phillies by pounding out an 18-to-13 victory in a battle of booming bats this today.

The champions hammered five Phillies pitchers for twenty-five hits, while the Quakers shared the batting spotlight with nineteen singles off three St. Louis hurlers.

PHILADELPHIA..... R. H. E.
St. Louis..... 18 2 0
Philadelphia..... 13 19 4
Batteries—Derringer, Carleton, Dean and Mancuso; Holley, Berly, J. Elliott, H. Elliott, Dudley and V. Davis.

Reds Down Doggers

BROOKLYN, Aug. 9.—Three "ghosts" of the past, Harry Hendrick, Ernie Lombardi and Babe Herman, rose up to confound the Doggers today and lead Cincinnati Reds to a ten-inning victory, 9 to 8.

Harry Hendrick led the Reds' slugging with four hits, scored the tying run in the ninth on a hit by Lombardi and drove in the winning tally in the tenth after Herman, third of the trio of ex-Doggers, started the winning rally with a pinch single.

Brooklyn..... R. H. E.
Cincinnati..... 9 10 0
Brooklyn..... 8 13 2
Batteries—Carroll, Frey, Benton, Ogden, Phelps and Lombardi; Helms, Rhee, Quinn, Vance and Lopez.

AMERICAN LEAGUE

ST. LOUIS, Aug. 9.—Vernon "Lefty" Gomez, New York Yankees star, won his second consecutive victory of the season today with the aid of Babe Ruth's thirty-second home run of the season, defeating the Browns, 5 to 2.

View Royals Win From Y.M.I. Nine In Island Series

Playing airtight ball behind the fine pitching of Chuck Turner, View Royals chalked up their second straight victory in the Lower Island softball championships Monday evening at the Central Park by drubbing the Y.M.I. Squad, 11-1.

Turner was in rare form and had the mound under control. He pitched a complete game, allowing only one run, two hits and one error. The Royals' defense was airtight, with no errors and only one hit by the Y.M.I. team.

Results of Yesterday's Olympic Sports at a Glance

LOS ANGELES, Aug. 9.—Summaries at the Olympic sports follow:

SWIMMING

200-Metre Breast Stroke (Women)—Won by Clara Dennis (Australia). 2, Hipeko Maehata, Japan; 3, Elsie Jacobsen, Denmark; 4, Margery Hinton, Great Britain; 5, Margaret Smith, United States; 6, Anne Goodwin, United States; 7, Jane Gaddell, United States; 8, 3:06.3. (New Olympic record, better world's record. Old Olympic record set by Miss Dennis last Saturday at 3:08.2. Recognized world's record, 3:11.4, set by Hilda Schrader, Germany, 1929.)

400-Metre Free Style (Men) Semi-Finals—First heat—Won by Takashi Yokoyama, Japan; 2, Jean Tarrat, France; 3, Teitomu Oyokota, Japan; 4, James Gilhula, United States; 5, Noel Ryan, Australia; 6, Paolo Costello, Italy. Time, 4:51.4. (New Olympic record. Old record, 4:53.2, set by Yokoyama yesterday.)

400-Metre Free Style (Men) Semi-Finals—Second heat—Won by Clarence Grabbe, United States; 2, Noburu Sugimoto, Japan; 3, Andrew Charlton, Australia; 4, Giuseppe Perottin, Italy; 5, Walter Spence, Canada. Time, 4:52.7.

100-Metre Back Stroke (Women)—First heat—Won by Poland; 2, Mikolajczak (bow), Budzinski (stroke), 7:53-2-5; 2, France; M. Vandenberg (bow), F. Vanderhoute (stroke), 7:54-4-4; 3, United States; Tom Clark (bow), Gene Clark (stroke), 8:03-1-3.

Second heat—Won by Great Britain; 2, New Zealand; Thompson (bow), Stiles (stroke), 7:50-1-5; 3, Holland; Roelissen (bow), Roell (stroke), 7:51-4-5.

Four-Oared, with coxswain: First heat—Won by Italy (Parovel, Diors, Piazzi and Valsorda, 17 minutes 6 seconds; 2, Germany (Spremborg, Myer, Hoeck, Eller (stroke), Newmann (coxswain), 7:09-1-5; 3, New Zealand (Solomon, Saunders, Cox and Pope (stroke), Gullery (coxswain), 7:19-3-5; 4, Brazil (Castro, Lima, Popovitch and Carneiro (stroke), Fernandes (coxswain), 7:29-2-5.

Second heat—Won by Poland (Koblinki, Urban, Slazak and Braun (stroke), Skilipowski (coxswain), 7:04-1-5; 2, United States (Marshall, Drueding, Grossmiller and English (stroke), Mack (coxswain), 7:06-3-5; 3, Japan (Suzuki, Shibata, Ben and Takashi (stroke), Namba (coxswain), 7:16-4-5.

Single sculls—First heat won by Bobby Pearce, Australia, 7:27; 2, B. Miller, United States, 7:29-1-3; 3, South Africa, 7:30-1-3; 4, Southwood, Great Britain, 7:42-3-5; 5, Quilermo R. Douglas, Uruguay, 7:45; 6, Joe Wright, Jr., Canada, 8:30-1-3.

Pair-Oared, without coxswain: First heat—Won by Poland; 2, Mikolajczak (bow), Budzinski (stroke), 7:53-2-5; 2, France; M. Vandenberg (bow), F. Vanderhoute (stroke), 7:54-4-4; 3, United States; Tom Clark (bow), Gene Clark (stroke), 8:03-1-3.

Second heat—Won by Great Britain; 2, New Zealand; Thompson (bow), Stiles (stroke), 7:50-1-5; 3, Holland; Roelissen (bow), Roell (stroke), 7:51-4-5.

Four-Oared, with coxswain: First heat—Won by Italy (Parovel, Diors, Piazzi and Valsorda, 17 minutes 6 seconds; 2, Germany (Spremborg, Myer, Hoeck, Eller (stroke), Newmann (coxswain), 7:09-1-5; 3, New Zealand (Solomon, Saunders, Cox and Pope (stroke), Gullery (coxswain), 7:19-3-5; 4, Brazil (Castro, Lima, Popovitch and Carneiro (stroke), Fernandes (coxswain), 7:29-2-5.

Second heat—Won by Poland (Koblinki, Urban, Slazak and Braun (stroke), Skilipowski (coxswain), 7:04-1-5; 2, United States (Marshall, Drueding, Grossmiller and English (stroke), Mack (coxswain), 7:06-3-5; 3, Japan (Suzuki, Shibata, Ben and Takashi (stroke), Namba (coxswain), 7:16-4-5.

Single sculls—First heat won by Bobby Pearce, Australia, 7:27; 2, B. Miller, United States, 7:29-1-3; 3, South Africa, 7:30-1-3; 4, Southwood, Great Britain, 7:42-3-5; 5, Quilermo R. Douglas, Uruguay, 7:45; 6, Joe Wright, Jr., Canada, 8:30-1-3.

Pair-Oared, without coxswain: First heat—Won by Poland; 2, Mikolajczak (bow), Budzinski (stroke), 7:53-2-5; 2, France; M. Vandenberg (bow), F. Vanderhoute (stroke), 7:54-4-4; 3, United States; Tom Clark (bow), Gene Clark (stroke), 8:03-1-3.

Second heat—Won by Great Britain; 2, New Zealand; Thompson (bow), Stiles (stroke), 7:50-1-5; 3, Holland; Roelissen (bow), Roell (stroke), 7:51-4-5.

BELL AND LEONARD WIN FIRST ROUND MATCHES IN EAST

Two Vancouver Players Enter Second Round—Bob Morrison Goes Under Before Jack Hoblitzel, 4 and 2—Ken Black Loses to A. E. Innes, 2 and 1—Somerville Brilliant

LAMBERT GOLF CLUB, TORONTO, Aug. 9.—Old Man Far

sustained several lusty wallops on the chin as C. R. "Sandy" Somerville, defending titleholder from London, Ont., and most of the other favorites, sailed through the first round of match play today in the Canadian amateur golf championship tourney. Two solid lacings and a few lighter clips had to be delivered the doughty old warrior by favored ones among the field of thirty-two, before the challenges of some of the lesser lights could be beaten down.

Champion Somerville himself handed par its worst trimming, when he fought from behind in the morning round to clip four strokes off perfect figure for the incoming nine for a 32 total, and nine straight holes from his opponent, young Frank Corrigan, of Ottawa. The spectacular spurt

Morning tour of the links by Jack Cameron, when the Toronto and Ottawa stalwart steamed around in 68 to give Lambert's tough par 70 the first complete-round trimming it has received during the tourney, and the fading from the picture of the qualifying medal winner, Joe Thompson, of Toronto, were other highlights of the day.

YOUNGSTER ADVANCES

Bobby Reith, of Winnipeg, seventeen-year-old giant killer, who recently toppled some of the mighty to win the Manitoba amateur and open crown, accounted for Thompson. It was a dingdong scrap with first one and then the other forging into a one-hole lead. Slim Bobby happened to be the one who held that margin when they reached the thirty-sixth hole and he advanced into the second round, where he meets the great Somerville.

Cameron's invincible morning play when he shot five birdies and strayed over par three times in his match against Frank Thompson, Toronto veteran, gave him a nine-hole margin at the half-way mark. Frank did a bit of par-clipping himself in the afternoon, but Cameron stayed closed by him and won out by 8 and 7.

Among the others of the sixteen who continue along the title trail as the result of wins today, Toronto has five in the money: Montreal, three; Vancouver and London, two each. Three of the four United States crown-seekers who qualified advanced through today's long nerve-testing fight. The other, H. H. Newton, of New York, fell by a 4 and 2 count before the brilliance of one of our own countrymen, Landy Will Gunn, Jr., from Wallingford, Penn.

Two Vancouver youths, Stan

Today's draw follows: Gunn vs. Bydoyle; Taylor vs. Carrick; Leonard vs. Farley; Somerville vs. Reith; McAtthey vs. Ryan; Bell vs. Nash; Innes vs. Cameron; Eckhardt vs. Hoblitzel.

TODAY'S DRAW

Today's fixtures are scheduled this afternoon on the Wednesday Cricket League programme. Saanich will clash with the Five C's at the Beacon Hill Park pitch, and Victoria Club will battle Hudson's Bay at Work Point Park. Both matches will start at 2:30 o'clock.

Hudson's Bay are out in front of the race with two victories and no defeats, while Victoria have two wins and one setback against them. The churches have captured one and suffered two reverses and Saanich have failed to break into the win column in two starts.

The revised schedule follows: August 24—Saanich vs. Hudson's Bay, at Hampton Road. Five C's vs. Victoria, at Beacon Hill.

August 31—Victoria vs. Saanich at Work Point; Hudson's Bay vs. Five C's, at Beacon Hill.

September 5—Victoria Wednesday League vs. Vancouver Wednesday League, at Beacon Hill.

September 14—Hudson's Bay vs. Saanich, at Beacon Hill.

Line-ups follow: Saanich—Austin, Phillips, Lock, Grant, Lethaby, Andrews, Scott, Booth, Hinks, Wilson and Seale.

Hudson's Bay—Hanson, Oakman, Trivett, Baker, G. Payne, Jones, A. Haunce, Benton, Stephens, P. Shrimpton and Kerslake.

Victoria—R. Wenman, Hewitt, Barber, Starkey, P. Sharland, Poynts, Sparks, Butt, Lawson, Craddock, Denbigh, Smith.

Five C's—Comley, Attwell, Fletcher, Thorne, Butterworth, Kinch, Griffin, Wilkinson, Reid, Pearce and Pendery.

Leonard and Jimmie Bell, stayed in the hunt, while another pair from the Pacific coast were toppling out. Leonard continued the sensational golf he has been shooting all season to defeat Tommy Calder, Montreal youth, by 5 and 4. Bell and Nicol Thompson, Jr., brother of Joe the medalist, fought an even fight that had them square at the eighteenth and twenty-seventh. Smiling Jimmie squinted at the later mark and won on the home green, 2 up.

Among the survivors, Don Carrick, lowering Toronto club-swingers, is the only one, excepting Somerville, who has previously known the feel of the amateur crown upon his brow.

Big Don showed he is fast rounding into his form of other years by beating John S. Lewis, Ontario champion from Brantford, by 3 and 1 after a hard battle.

The trio of Montrealers who took one more step toward the throne-room are Gordon Taylor, E. A. Innes and T. G. McAtthey. Young Taylor, who whacks them far with muscular shoulders and wrists, piled up one of the day's most lopsided wins. His opponent, H. C. Millicamp, of Oshawa, stumbled about the creeks, and Taylor's impressive work gave him victory by 9 up and 8 to go.

Bob Morrison, Victoria, after being one down to Jack Hoblitzel, Toronto, in the morning round, could not match the hot pace set by the Eastern veteran in the second eleven and lost out, 4 and 2. Hoblitzel played par golf, and Morrison had trouble with his tee shots.

Young Ken Black, of Vancouver, had a tough battle with E. A. Innes, of Montreal, before succumbing, 2 and 1. The match was nip and tuck throughout with the Eastern player holding a slight advantage throughout.

Results follow: Sandy Somerville, London, defeated Frank Corrigan, Ottawa, 7 and 6.

Bobby Reith, Winnipeg, defeated Joe Thompson, Toronto, 1 up.

Francis Ryan, Detroit, defeated C. H. Hodgman, Winnipeg, 5 and 3.

E. A. Innes, Montreal, defeated Ken Black, Vancouver, 2 and 1.

Bob Hoblitzel, Toronto, defeated Fred Morrison, Victoria, 4 and 2.

J. Bell, Vancouver, defeated H. Thompson, Jr., Toronto, 2 up.

D. Carrick, Toronto, defeated John Lewis, Brantford, 3 and 1.

Stan Leonard, Vancouver, defeated Tom Calder, Montreal, 5 and 4.

Phil Farley, Toronto, defeated Fred Lyon, Toronto, 3 and 2.

G. Taylor, Montreal, defeated H. Millicamp, Oshawa, 9 and 8.

J. Nash, London, defeated E. Russell, Toronto, 4 and 2.

J. Bydoyle, Buffalo, defeated T. Grossart, Toronto, 7 and 6.

Will Gunn, Jr., Wallingford, Pa., defeated H. H. Newton, New York, 4 and 2.

W. A. Eckhardt, Toronto, defeated E. Elton, Montreal, 10 and 9.

Stan Leonard, Vancouver, defeated Frank Thompson, Toronto, 8 and 7.

T. C. McAtthey, Montreal, defeated Stan Thompson, Toronto, 7 and 6.
